

**COMMERCIAL METER & METER READING SYSTEM**

**2010**

Denver Water will pay our commercial, industrial, and institutional customers to monitor their water use, which may involve replacing their existing water meter with a water meter compatible with digital meter reading systems. Once a compatible meter is in place, customers will be paid to install a digital meter reading system.

The Commercial Meter & Meter Reading System Rebate offers:

- 25% of the cost per water meter, not including installation. Meter must be compatible with digital meter reading system.
- \$150 per signal splitter and new automatic meter reading (AMR) device installed for the purpose of digital meter reading. Note: compound meters will require two splitters. Customer must agree to provide Denver Water an annual record of meter readings by e-mail to conservation@denverwater.org.
- Please contact meter shop at 303-628-6704 for consultation to determine necessary equipment.

**Qualifications:**

- Operation and maintenance of equipment is sole responsibility of customers.
- Customer must receive treated water and a bill from Denver Water.
- A receipt for the new equipment dated between January 1 and December 31, 2010 must be provided with the application.
- Submit your application within 90 days of purchase. Installation must be completed within 12 months of application receipt date.
- Representatives from meter manufacturers, Denver Water meter shop, conservation and customer must be present during installation.
- Mail completed application form to Denver Water.
- Please allow 8-12 weeks for your completed application to be processed.
- If you have questions, please call 303-607-3110

*\* Failure to cash a rebate check within 90 days of issuance shall void the rebate and shall relieve Denver Water of any obligation or liability to pay the rebate. Rebate checks cannot be reissued.*
