

Sharing Project Data

TABLE OF CONTENTS: SECTION 9.0

Overview - Section 9.0	9.0-3
Overview - Section 9.1 – C3D Data Shortcuts & References	9.1-1
Data Shortcuts	9.1-3
Data References	9.1-6
Reference Example - Surfaces.....	9.1-7
Overview - Section 9.2 – External References (XREFs).....	9.2-1
Attaching an XREF.....	9.2-3
Overview - Section 9.3 – Exporting & Importing C3D Data.....	9.3-1
Exporting C3D Data with XML.....	9.3-3
Importing C3D Data with XML.....	9.3-5
Overview - Section 9.4 - eTransmit	9.4-1
eTransmit.....	9.4-3

OVERVIEW - SECTION 9.0

In order to have a successful project, collaboration and communication is crucial, especially since many projects require work from multiple sections within Engineering. AutoCAD and Civil 3D have several ways to ensure project data gets shared effectively and efficiently:

- C3D Data Shortcuts and References - [[Section 9.1](#)]
- External References (XREF's) - [[Section 9.2](#)]
- Exporting and Importing C3D Data (XML) - [[Section 9.3](#)]
- eTransmit - [[Section 9.4](#)]

Utilize the following subsections to ensure proper use of each of these methods.
