Letter of Transmittal

June 1, 2018

To the Board of Water Commissioners and Participants in the Plans of the Denver Water Retirement Program:

We are pleased to present the Annual Report of the Retirement Program of the Denver Board of Water Commissioners for the fiscal year ended December 31, 2018. The Retirement Program includes three trustee funds ("Plans") and two additional, unfunded benefits. The trustee funds are the Employees' Retirement Plan of the Denver Board of Water Commissioners ("Defined Benefit Plan" or "DB Plan"), the Denver Water Supplemental Retirement Savings Plan ("401(k) Plan" or "SRSP") and the Denver Water 457 Deferred Compensation Plan ("457 Plan"). The 401(k) Plan and the 457 Plan are collectively referred to as the "Defined Contribution Plans" or "DC Plans". This report contains audited financial statements only for the trustee plans. The two unfunded benefits are a Retiree Medical Coverage Program and a Retirement Financial Planning Reimbursement Program. Although the two unfunded benefits are discussed briefly in this letter, financial statements were not prepared for either of the unfunded benefits nor are they discussed in the other sections of this Annual Report.

The report is divided into five sections: An Introductory Section, a Financial Section, an Investment Section, an Actuarial Section, and a Statistical Section.

Management assumes full responsibility for both the accuracy of the data, and the completeness and fairness of the report, including the financial statement presentation, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of management's knowledge and belief, the data is accurate in all material respects and presents fairly the financial position and results of operations of the Plans.

CliftonLarsonAllen LLP audited the three financial statements included in this document and issued an unmodified ("clean") opinion on each of those financial statements for the year ended December 31, 2018. The independent accountant's report is the first page of each set of statements, all of which are included in the Financial Section of this report. Accounting principles accepted in the United States of America, (GAAP) require that management provide a narrative overview and analysis of the financial status of each plan to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). Each set of financial statements in the Financial Section includes the MD&A just after the auditor's report. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The Introductory Section contains information about the administrative organization, the Trustee, or the Sponsor of each Plan included in the Retirement Program, the Denver Water Retirement Program Committee and the Consultants and Advisors who provide advice concerning the various elements of the Retirement Program. The Financial Section contains the audited financial statements of the Plans and other required supplementary information. The Investment Section contains a report on investment activity, investment policies, investment results, and various investment schedules. The Actuarial Section contains the actuarial assumptions and methods used in the DB Plan, a summary of DB Plan provisions, the results of the annual actuarial valuation, and other

actuarial statistics. The Statistical Section presents other significant data pertaining to the Plans, such as trend information on DB Plan expenses and revenues as well as information about the retired members of the DB Plan.

Background of the Retirement Program

The Denver Board of Water Commissioners ("Board") is a five-member board appointed by the Mayor of Denver, Colorado to oversee the operations of the water utility that serves Denver and a large part of the Denver metropolitan area ("Denver Water"). Denver Water was created by the people of Denver by the Charter of the City and County of Denver, Colorado ("City"). Article X, Section 10.1.6 of the City Charter grants to the Board authority to establish and amend benefit provisions for Denver Water employees.

The ***Employees' Retirement Plan of the Denver Board of Water Commissioners*** was established on June 1, 1944 as a defined benefit, single-employer plan covering substantially all regular and discretionary employees of the Board. The Board is the sponsor, administrator and trustee of the assets of the DB Plan. The assets are held in custody by The Northern Trust Company. When it was first adopted, the DB Plan benefit was set at \$3 for each year of service with a maximum monthly payment of \$100. Employees were required to contribute \$3 per month. Part-time employees and those who were hired after the age of 50 were not permitted to participate in the plan. Payments did not begin until the age of 70 and they could have been delayed for up to three years. Over the years, the DB Plan has evolved. In 1971, cost of living adjustments were added. In 1981, employee contributions were eliminated. In 1985, early retirement at age 55 with 15 years of service became available, but at a reduced amount. In 1995, the Rule of 75 was adopted, permitting an unreduced retirement at the age of 55 with 20 years of service. In 1996, part-time employees were allowed to participate in the DB Plan, and in 2001 the 35-year cap on years of service used for computing benefits was eliminated.

In December 2016, the Board approved several changes to the Plan with an effective date of January 1, 2018. Employees hired prior to January 1, 2018 will contribute 3% of their compensation to be phased in over three years beginning in 2018. A second-tier plan was created for employees hired after January 1, 2018. These employees are required to contribute 3% of their compensation beginning immediately upon hire, will have a benefit multiplier of 1.75%, are eligible for special early retirement benefits under the rule of 85 at a minimum age of 60, and no cost of living adjustment. Employees who leave employment and choose not to receive a pension benefit will be refunded their contributions with an established rate of interest.

For employees hired prior to January 1, 2018, the DB Plan provides normal, special early (Rule of 75), and late retirement benefit options with limited annual cost-of-living adjustments, disability benefits and death benefits. Participants become fully vested after five (5) years of employment. DB Plan benefits are integrated with Social Security benefits and are determined by a formula defined in the DB Plan document. A more detailed explanation of benefits is outlined in the Summary of DB Plan Provisions in the Actuarial Section of this report.

As of December 31, 2018, there were 1,887 participants in the DB Plan, including 1,006 active members, 681 retirees and beneficiaries and 151 terminated employees entitled to benefits, but not receiving them yet.

The ***Denver Water Supplemental Retirement Savings Plan*** was established pursuant to Section 401(k) of the Internal Revenue Code (IRC), effective January 1, 1999. It is a single-employer defined contribution plan. All regular and discretionary employees are eligible to participate in the 401(k) Plan upon completion of a required introductory period. Denver Water matches 100% of each Participant's contribution up to 3% of the Participant's published base compensation. The SRSP provides for immediate vesting of all contributions. Participation in the SRSP is voluntary. Empower Retirement Service is the administrator of the SRSP. At the end of 2018 there were 895 active participants with balances and 295 terminated participants with balances. 90% of all eligible Denver Water employees participated in the SRSP Plan as of December 31, 2018.

Denver Water established a 457 Deferred Compensation Plan pursuant to Section 457 of the Internal Revenue Code (IRC) in 1987. Assets from that plan were transferred to the **Denver Water 457 Deferred Compensation Plan**, when it was established on January 3, 2001. All regular or discretionary employees are eligible to participate in the 457 Plan upon completion of a required introductory period. Denver Water does not contribute to the plan and employee participation is voluntary*. Empower Retirement Service is the administrator of the SRSP. At the end of 2018, there were 462 active participants with balances and 196 terminated participants with balances. 40% of all eligible Denver Water employees participated in the 457 Plan as of December 31, 2018.

Denver Water offers a **Retirement Financial Planning Reimbursement Program** designed to encourage eligible employees to consult with a Certified Financial Planner (CFP®) of their choice about their retirement planning needs. Reimbursement requires certification that the services did not include tax preparation, legal, accounting or brokerage services, as the program is designed to be a tax-free reimbursement for "qualified retirement planning services" as described in Internal Revenue Code section 132(m). The Program is available to all employees with 5 years of credited service or more and has the maximum lifetime benefit of \$2,000. 13 employees used the counseling services during 2018 and 6 of those employees have subsequently retired. The total 2018 expenditures on the Retirement Financial Planning Reimbursement Program were \$15,100.

Denver Water began offering the Retiree Medical Coverage Program in 1995, which also was the first-year employees were able to retire under the Rule of 75. The benefit is in the form of partially subsidized health care costs, until the retiree attains age 65. The retiree's coverage ceases after the retiree becomes Medicare-eligible at age 65. At that point, a spouse may elect to remain in the program until age 65, and other dependents may also elect to remain in the program until the dependent attains the cut-off age for active employee dependents. Full cost premiums are charged to the spouse or the dependent if there is an election to remain in the program after the retiree's coverage ends. The benefit is provided through the Board's self-insured health plan to employees and dependents who meet eligibility requirements of the postemployment healthcare benefit plan. The eligibility requirements include retiring under the Special Early Retirement (Rule of 75) provision of the Board's defined benefit pension plan, taking an immediate distribution of pension benefits, and being covered as an employee or dependent under the employee healthcare plan, excluding COBRA coverage, at the time of retirement. The subsidy is separate from the Board's defined benefit retirement plan and is not paid out of retirement plan funds. In January 2012, the Board discontinued its contribution for this benefit for employees hired on or after January 16, 2012. However, these employees can still access this program at full cost upon meeting the Rule of 75. The Board approved changes in the eligibility requirements for Postemployment Healthcare Benefits in 2013. The minimum eligible age changed from 55 to 60 years while the Rule of 75 remained intact, converting it to a maximum five-year benefit. Certain employees, who had completed 25 years of service as of the end of 2013, retained the right to receive a subsidy, available at the time of their retirement, if retired under the Rule of 75, but before reaching age 65. For all other employees, the minimum retirement age to be eligible for benefits was raised to age 60. As of the end of 2018, 142 retirees were receiving this benefit.

Effective with the issuance of the December 31, 2007 financial statements, The Governmental Accounting Standards Board ("GASB") Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions", requires Denver Water to accrue the cost of this benefit over the period of employment, much as a defined pension benefit is now accrued. Denver Water is in compliance with GASB Statement No. 45 and is accruing the liabilities related to health care coverage for Early Retirees as presented in its financial statements. Denver Water is not required to, and has not, established an irrevocable trust to accumulate assets for payment of future retiree health benefits. Payments of benefits are made on a pay-as-you-go basis in amounts necessary to provide current benefits to recipients. The annual expense for this benefit is calculated based on the annual required contribution as computed by the actuary. The expense recorded in 2018 was \$1.12 million and \$2.1 million was paid as benefits under the plan. Retirees receiving benefits contributed \$856,037 of premium equivalent costs. The Net OPEB Obligation for postemployment healthcare benefits as of the end of the year was \$13.6 million.

**Does not include discretionary contributions*

Major Initiatives in 2018 and 2017

- **DB Plan changes approved by the Board** - On December 5, 2018 the Plan was amended to address necessary Plan changes from transitioning to a third-party administrator for benefit payment services. The changes to the Plan addressed credited service for participants on short-term and long-term disability and on active military leave who return to work, covered compensation for participants on long-term disability, return of employee contributions when deferred vested participants die before receiving benefits, timing of certain elections of lump sum benefits, and timing for elections of benefits.
- In 2017 the Board approved changes to the Plan Document in response to the Plan changes that were made in December of 2016. As of January 1, 2018, the following changes went into effect:
 - The addition of definitions of Tier one and Tier two members.
 - Employee contributions from both tiers will be paid from pre-tax dollars.
 - Added an election to receive a refund of accumulated contributions for non-vested members.
 - The interest rate credited on refunds of employee contributions made on or after January 1, 2018 will be 2.5% compounded annually.
 - Eliminate mandatory distributions except for required minimum distributions.
 - Require a person rehired on or after January 1, 2018 be placed in Tier two. Credited services are retained by the member if money is left in the Plan or is restored. Benefit is calculated under two formulas for rehired Tier one employees.
 - Provide for a time limit on restoration of credited service for reemployed non-vested members who took a refund of contributions. Member must be reemployed within two years of termination. Member must repay the refund of accumulated contributions with 8% interest within 60 days of reemployment otherwise they will forfeit their prior credited services. Can be repaid with after tax dollars or a trustee to trustee transfer from a qualifying plan.

Tier two members

- Changed the retirement formula for Tier two members to 1.75% times their average final compensation times their years of service and will not be integrated with social security.
 - Early retirement is at age 60 with 5 years of service with reduced benefit.
 - Tier two members cannot vote on major changes to the Plan.
 - Changed average final compensation for Tier two members to the highest 60 consecutive months in 10 years.
 - A previously vested employee reemployed within two years after receiving a lump sum payment may have previous credited service restored if the employee repays the lump sum within 60 days with 8% interest.
- **Manager Changes in the DB Plan.** The Chief Finance Officer, with the assistance of the Investment Consultant for the DB Plan, approved the following changes in the investment manager lineup for the DB Plan:
 - Vanguard Growth was terminated to counter the large cap tilt that resulted from the termination of Advisory Research at the end of 2017. Additionally, Vanguard was determined to be too heavily concentrated in a single value factor, dividends, and thus did not contribute a true value counterbalance to the remainder of the portfolio.
 - Alliance Bernstein (AB) US Small/Mid cap value strategy was selected to replace Vanguard.
 - **DC Plan Fund Changes:**
 - Harbor International was terminated and Arrowstreet was hired as its replacement.

Investments

As discussed in more detail in both the Financial Section and the Investment Section, assets of all Plans are held in trust for the exclusive benefit of participants and beneficiaries. Investment activities have been delegated to professional investment managers. The investment managers engaged by the Defined Benefit Plan as of December 31, 2018 are listed on page 86 of the report; funds included in the Defined Contribution Plans are listed on page 100 of the report. Activities of the professional managers are reviewed and evaluated quarterly by the investment consultant for each plan, the Retirement Program Committee (RPC), and Denver Water's Finance staff.

The investments in the Defined Benefit Plan returned -3.89% (gross of fees) during 2018, compared to the target benchmark return of -3.79% and the actuarial assumed rate of return of 7.00%. The annualized rate of return on assets of the Defined Benefit Plan was 6.09% over the last three years and 5.20% over the last five years. Returns on Defined Contribution Plans vary depending on the choices made by each participant.

A summary of the current investment objectives and guidelines for each fund, additional information concerning allocation of the DB Plan's assets, and more detailed information about investment performance is included in the Investment Section of this report.

Funding

As of January 1, 2019, the Funded Ratio of the DB Plan was 82.5%, compared to 80.8% the year before. Over the past ten years the Funded Ratio ranged from a low of 72.7% (01/01/09) to a high of 84.9% (01/01/16). More information about funding of the DB Plan, including a multi-year Schedule of Funding Progress, is provided in the Actuarial Section of this report.

Funding of the Defined Contribution Plans is primarily from employee contributions. Denver Water currently matches 100% of employee contributions to the 401(k) plan up to 3% of published base pay.

Professional Services

Professional consultants and advisors are engaged as necessary to perform professional services that are essential to the effective and efficient operation of the Plan. Opinions from the Independent Auditor for the Financial Statements of each of the Plans, an opinion from the actuary for the DB Plan, and a report from the Investment Performance Measurement Consultant to the DB Plan are included in this report. The consultants engaged to assist the CEO/Manager, various staff members, and the Board are listed on pages 15 - 19.

Acknowledgements

The compilation of this report reflects the combined effort of Denver Water's staff. It is intended to provide complete and reliable information about the Defined Benefit Plan and the Defined Contribution Plans. It will be made available to all members of the Denver Water Retirement Program.

We would like to express our appreciation to the Denver Water staff, specifically the members of the Retirement Program Committee and their support staff, the advisors, and to the many other people who have worked so diligently in the preparation of this report and toward the successful operation of the Denver Water Retirement Program.

Respectfully submitted,

James S. Lochhead, CEO/Manager

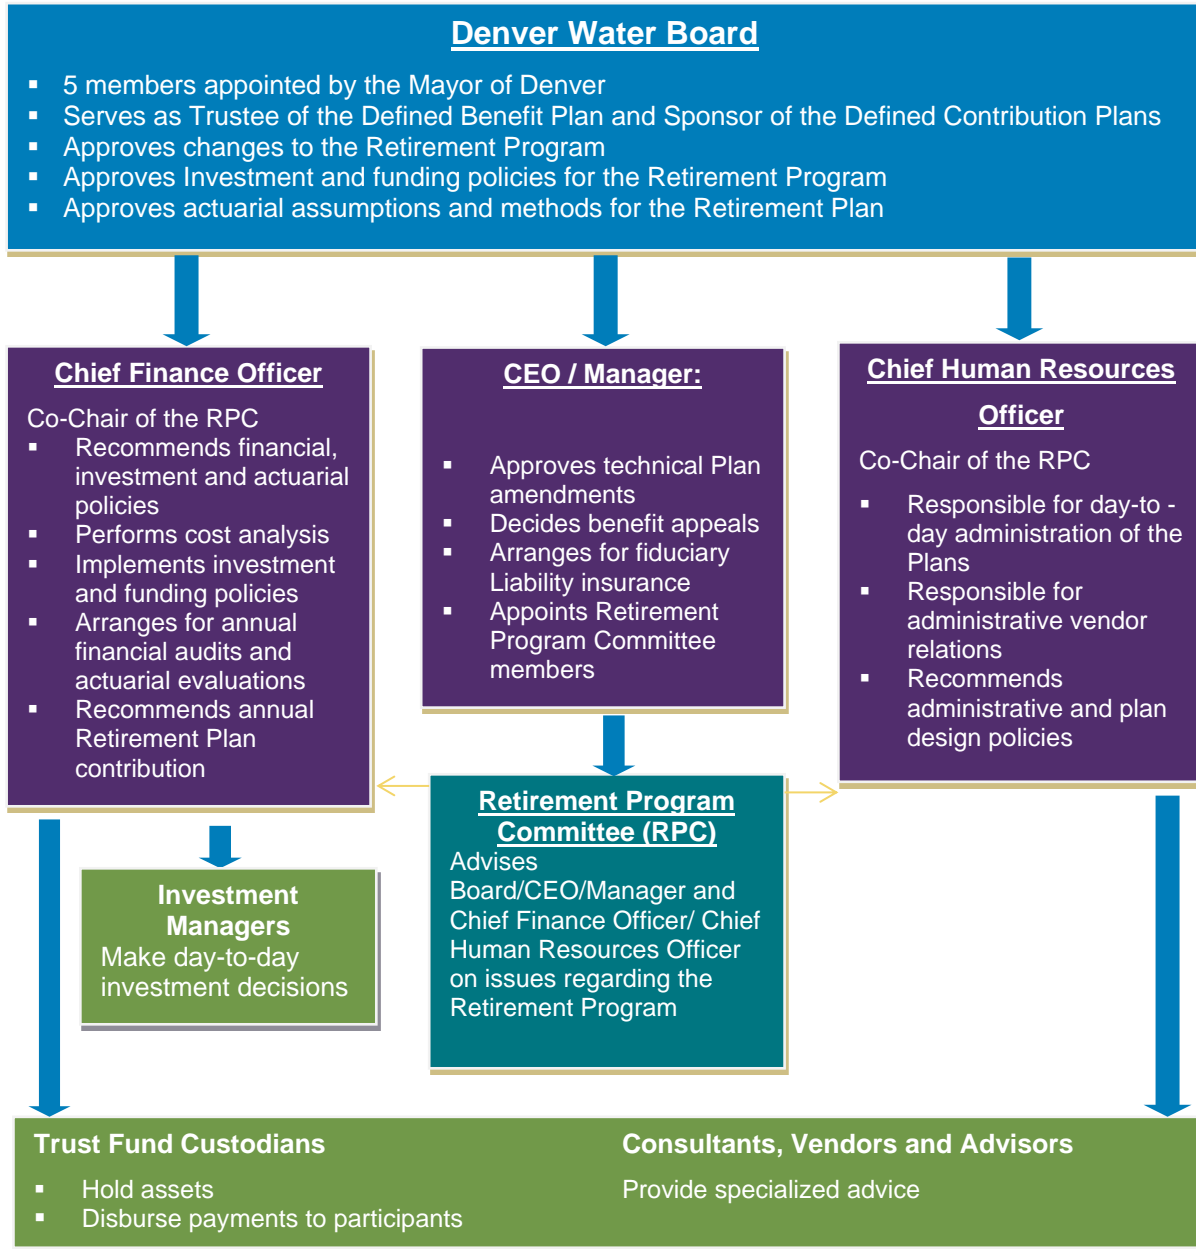

Gail Cagle
Chief Human Resources Officer, RPC Co-Chair

Angela Bricmont
Chief Finance Officer, RPC Co-Chair

C. Key Members of the Retirement Program Committee

The Retirement Program Committee (“RPC”) - Responsible for advising the CEO/Manager with respect to retirement issues, was created by resolution of the Board in September 2005. The terms of the 2005 resolution were revised in 2013. Under the resolution, the Board retained full authority to approve substantive changes to the Retirement Program, investment and funding policies, and actuarial methods and assumptions. The 2013 resolution clarifies that the Retirement Program Committee will make recommendations to the Chiefs, the CEO/Manager or the Board, as appropriate, but will not have decision-making authority. The RPC is co-chaired by the Chief Human Resources Officer and Chief Finance Officer and includes key representatives from Finance, HR and the Legal. The CEO/manager issued a Policy that further describes the RPC’s purpose, responsibilities, duties and procedures in November 2013. The primary purpose of the RPC, as outlined in the Executive Guideline, is to provide advice and recommendation to the co-chairs regarding proposed changes to the Retirement program, communication strategies, contractual obligations, legal and tax compliance and education and outreach.

James S. Lochhead - CEO / Manager since June 2010. Responsible for approving amendments to the Plans necessary to maintain tax qualified status, deciding benefit appeals, and arranging for fiduciary liability insurance for Plan fiduciaries. The CEO/Manager reports to the Board at least annually regarding the status of the Program and appoints members of the Retirement Program Committee.

Gail Cagle - Chief Human Resources Officer since January 2014; co-chair of the RPC. The Chief Human Resources Officer administers the Plans with regard to participants, including data maintenance, disclosures, calculations, payment of benefits and other similar duties. She is also responsible for communicating with participants and beneficiaries, recommending to CEO/Manager any changes to the Plans necessary to retain their tax qualified status evaluating and recommending changes in Program design and providing information related to the administration of the Program to the Board and the CEO/manager no less frequently than semi-annually.

Angela C. Bricmont - Chief Finance Officer since July 2010, co-chair of the RPC. The Chief Finance Officer recommends investment policy, actuarial methods and assumptions and annual contributions to the DB Plan. The Chief Finance Officer also analyzes and advises the Board and the CEO/Manager about the total cost impact of Program changes recommended by the Chief Finance Officer, implements investment and funding policies approved by the Board, allocates cash flow for the payment of benefits and other obligations, rebalances Plan assets, selects and monitors investment managers, auditors, actuaries and other financial experts. The Chief Finance Officer is responsible for reporting the financial activities and status of the Program to the Board and the CEO/Manager at least semi-annually.

Deb B. Engleman - Senior Benefits Administrator since June 1993; member RPC. The Chief Human Resources Officer has assigned to Ms. Engleman responsibility for daily monitoring, administration and evaluation of various employee benefit policies and programs and recommending changes to these programs. Ms. Engleman also administers external benefit-related contracts.

Usha Sharma - Treasurer since April 2009. The Chief Finance Officer has delegated various responsibilities pertaining to the Plans, including the preparation of this Annual Financial Report, to the Treasurer and her subordinates.

Kris Bates - Office of General Council; Ms. Bates has been employed by Denver Water since 2004; member RPC. Ms. Bates works with outside subject matter legal experts to advise the Chief Finance Officer and the Chief Human Resources Officer.

Aneta M. Rettig - Finance Supervisor with Denver Water since March 2006; member RPC; supports the Treasurer in fulfilling her responsibilities pertaining to the Plans.

Jeff Bogner - Senior Finance Analyst since August 2012; member RPC; supports the Treasurer in fulfilling her responsibilities pertaining to the Plans.

INDEPENDENT AUDITORS' REPORT

The Board of Water Commissioners, City and County of Denver, Colorado
Employees' Retirement Plan of the Denver Board of Water Commissioners
Denver, Colorado

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position and statements of changes in fiduciary net position of the Employees' Retirement Plan of the Denver Board of Water Commissioners (the Plan), as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Board of Water Commissioners, City and County of Denver, Colorado
Employees' Retirement Plan of the Denver Board of Water Commissioners

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of December 31, 2017 and 2016, and the respective changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-7 and Schedules of Changes in Net Pension Liability and Related Ratios, Employer Contributions and Investment Returns on pages 24-26 are presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 19, 2018, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

**CliftonLarsonAllen LLP was not engaged to perform and has not performed, since the date of its report, any procedures on the financial statements addressed in such report and that the Board has not requested the consent of CliftonLarsonAllen LLP for the inclusion of its report therein.*

2. Management's Discussion and Analysis

This is an analysis and overview of the financial activities of the Employees' Retirement Plan of the Denver Board of Water Commissioners (Plan) as of and for the years ended December 31, 2018 and 2017. This information should be read in conjunction with the financial statements and notes which follow.

Financial Highlights

As of December 31, 2018, and 2017, \$342.8 million and \$360.7 million, respectively, were held in trust for the payment of Plan benefits, and to meet the Plan's future obligations to its participants.

For 2018, the fiduciary net position restricted for pension of the Plan decreased by \$17.9 million or 5.0%. This compares with a \$46.3 million increase or 14.7% in 2017. The decrease in 2018 and the increase in 2017 was primarily due to changes in the fair value of the Plan's investments. Net depreciation in the fair value of investments was \$62.2 million or 135.9% in 2018. Comparatively, net appreciation in the fair value of investments increased \$27.8 million or 154.1% in 2017.

Additions to the Plan's fiduciary net position restricted for pension in 2018 included employer and employee contributions of \$18.0 million and \$662 thousand, respectively, offset with a net investment loss of \$14.3 million resulting in total additions to the Plan's fiduciary net position restricted for pension of \$4.3 million. Additions to the Plan's fiduciary net position restricted for pension in 2017 included employer contributions of \$18.0 million and net investment income of \$48.3 million resulting in total additions to the Plan's fiduciary net position restricted for pension of \$66.3 million.

Deductions from the Plan's fiduciary net position restricted for pension for 2018 and 2017 were \$22.2 and \$20.0 million, respectively. The majority of the 2018 and 2017 deductions were from retirement benefit payments of \$22.0 and \$19.9 million, respectively.

The Plan's investment objective is to preserve the actuarial soundness of the Plan by achieving a long-term return of at least the actuarial earnings rate and to prudently manage the inherent investment risks that are related to the achievement of this goal. As of January 1, 2018, and 2017, the dates of the latest actuarial funding valuations, the funded ratio for the Plan was 80.8% and 79.9%, respectively.

Overview of the Financial Statements

The following discussion and analysis is intended to serve as an introduction to the Plan's financial statements, which follow. The statements include the following:

1. Statements of Fiduciary Net Position
2. Statements of Changes in Fiduciary Net Position
3. Notes to Financial Statements
4. Required Supplementary Information

The Statements of Fiduciary Net Position include information about Plan assets, liabilities and net position restricted for pension, as applicable as of December 31, 2018 and 2017. The Statements of Changes in Fiduciary Net Position show the additions to, deductions from, and net increase (or decrease) in the Plan's net position restricted for pension during 2018 and 2017.

The above financial statements are presented in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, which provides guidance for determining a fair value measurement for financial reporting purposes and provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements, Statement No. 67, *Financial Reporting for Pension Plans* (replacing GASB 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans* and GASB 50, *Pension Disclosures*) and GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, and all other applicable GASB pronouncements including GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. These pronouncements address the requirements for financial statement presentation and certain disclosures for state and local governmental entities. The Plan's financial statements comply with all material requirements of these pronouncements.

These financial statements provide a snapshot of the Plan's assets and liabilities as of December 31, 2018 and 2017, and the activities that occurred during those years. Both financial statements were prepared using the accrual basis of accounting as required by GASB. All investment activities have been reported based on the trade dates and have been valued by independent outside sources.

Notes to Financial Statements provide additional information that is essential to have a full understanding of the basic financial statements.

Required Supplementary Information prepared in accordance with U.S. generally accepted accounting principles provides additional information about the Plan's progress in its ability to meet its future obligations. It also provides the history of the Denver Board of Water Commissioners (Board) contributions to the Plan and investment returns for the last 10 years.

Changes in Net Position Restricted for Pension

The Statement of Fiduciary Net Position displays Plan assets, liabilities, and fiduciary net position restricted for pension at year-end. The Statement of Changes in Fiduciary Net Position provide information on the source of the change in fiduciary net position restricted for pension during the year. The decrease in total assets of \$17.8 million or 4.9% in 2018 was primarily the result of a decrease in the fair value of investments. Comparatively, in 2017, total assets increased \$46.2 million or 14.7%. The increase in 2017 was primarily the result of an increase in the fair value of investments.

As of December 31, 2018, 2017 and 2016, the Plan's net position was:

Fiduciary Net Position Restricted for Pension

(Amounts expressed in thousands)

	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percentage change	Increase (decrease)	Percentage change
Cash and cash equivalents	\$ 4,435	3,517	4,096	\$ 918	26.1%	\$ (579)	(14.1)%
Dividends, interest, and other receivables	104	410	438	(306)	(74.6)	(28)	(6.4)
Investments, at fair value	338,429	356,882	310,055	(18,453)	(5.2)	46,827	15.1
Total assets	342,968	360,809	314,589	(17,841)	(4.9)	46,220	14.7
Total liabilities	145	94	172	51	54.3	(78)	(45.3)
Fiduciary net position restricted for pension	\$ 342,823	360,715	314,417	\$ (17,892)	(5.0)%	\$ 46,298	14.7%

Winslow Capital Management, Inc. reported cash and cash equivalents as of December 31, 2018. Cash and cash equivalents are also held in the custodial cash account used for disbursement of benefit payments and administrative expenses. Starting in 2018, the Plan began using a third-party administrator (TPA) for benefit payment services. Cash is transferred monthly from the custodial cash account to the TPA for retiree benefit payments. As of December 31, 2018, \$1.8 million was held with the TPA for benefit payments to be paid in January 2019. Many of the other managers have cash holdings from time to time, but do not specifically identify them in their statements of assets.

Liabilities of the Plan for 2018 consisted primarily of unpaid, but earned, investment manager fees of \$106,500. In 2017, liabilities consisted primarily of outstanding investment expenses of \$94,400. The change in the fiduciary net position restricted for pension is a function of the change in total assets offset by the change in total liabilities. The Plan recorded a decrease in fiduciary net position restricted for pension of \$17.9 million in 2018 and an increase of \$46.3 million in 2017.

Additions

The funds needed to pay benefits are accumulated from the contributions approved by the Board, employee contributions, and the income generated from the Plan's investments, including interest, dividends, and proceeds from the sale of individual investments. Earnings on Plan investments are reported separately from fees charged by investment managers. Investment fees are reported using the best information available to Plan management. Board-approved contributions for 2018 and 2017 totaled \$18.0 million. The Board has approved contributions of amounts more than the actuarially determined contribution for seven of the last ten years. Effective January 1, 2018, the Plan was amended to require employee contributions to the Plan. Employee contributions for 2018 totaled \$662 thousand.

Additions to Fiduciary Net Position Restricted for Pension

Employee contributions	662	—	—	662	—%	—	—%
Net investment income (loss)	(14,319)	48,273	21,326	(62,592)	(129.7)	26,947	126.4
Total additions, net	\$ 4,343	66,273	35,826	(61,930)	(93.4)%	\$ 30,447	85.0%

Deductions

Annual Plan expenditures include retirement benefits, death benefits, refunds of employee contributions with associated interest and administrative expenses. The Plan's normal benefit is a single life annuity to retired members, but members may elect to receive benefits in various other forms, including a lump sum or annuities that provide spousal benefits upon the death of the member. Please refer to the Plan document for detailed information regarding the Plan. For the years ended December 31, 2018 and 2017, annual plan deductions totaled \$22.2 and \$20.0 million, respectively.

Deductions to Fiduciary Net Position Restricted for Pension

(Amounts expressed in thousands)

	Years ended December 31			2018 - 2017		2017 - 2016	
	2018	2017	2016	Increase (decrease)	Percentage change	Increase (decrease)	Percentage change

Administrative expenses	180	48	52	132	275.0	(4)	(7.7)
Total deductions	\$ 22,235	19,975	19,983	\$ 2,260	11.31%	\$ (8)	(0.04)%

Investment Activities

The U.S. real gross domestic product (GDP) increased at an annual rate of 3.4% according to the third quarter estimate released by the Bureau of Economic Analysis (BEA) in 2018. This was slightly lower than the BEA's revised second quarter estimate of 3.5% and well above the 2.2% reported for the first quarter. Stocks were marked by volatility, with the S&P 500 setting a record high in September yet finishing down 6.2% for the year. The volatility was driven by signs of slowing global economies, concerns about monetary policy, geopolitical tension, and inflation fears. In both international developed and emerging markets, stocks declined, with the FTSE All-World Index finishing the year down 12%. The U.S. experienced positive job creation, rising wages

and low unemployment. The U.S. economy added 2.6 million new jobs in 2018. U.S. nominal average hourly earnings rose by 3.2% and the unemployment rate ended at 3.9% at the close of 2018. West Texas Intermediate Oil price peaked in October above \$75 a barrel and declined below \$45 in December amid concerns of oversupply and lower global demand growth. Core inflation in 2018 was contained around the Fed's target of 2%.

Denver Water's Retirement Plan posted a 3.9% loss for the year (-4.1% net of fees), slightly trailing the Plan's customized benchmark return of -3.8% on a gross of fees basis for 2018. The private equity segment was the best absolute and relative performer, posting a 16.1% gain for the year, 18.9 percentage points above the Russell 3000 index + 2.5% custom index return. The second-best performing segment on an absolute basis was the real estate segment, returning 7.1% for the year. The hedge fund segment recorded a 0.8% gain, outperforming its benchmark index, HFR Fund of Funds Composite, by 4.8 percentage points for the year. The fixed income segment returned 0.5% for the year versus the Denver Board of Water Fixed (DBOW) Income Blend Index return of 0.0%. The domestic public equity segment had a -6.5% return, underperforming its Denver Domestic Equity Index by 1.2 percentage points. The international equities segment reported a negative return of 15.2%, which slightly underperformed its DBOW International Equity Index by 1.0 percentage points for the year.

Requests for Information

This discussion and analysis is designed to provide a general overview of the Plan's financial status as of December 31, 2018 and 2017, and changes in financial status for the years then ended. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

4. Notes to the Financial Statements

Note 1 – Plan Description

a. Plan Administration

The Board of Water Commissioners, City and County of Denver, Colorado (the Board), adopted the Employees' Retirement Plan of the Denver Board of Water Commissioners (Plan) in 1944. It is a defined benefit, single employer plan covering substantially all regular employees of the Board.

The Board is made up of five members appointed by the Mayor of the City and County of Denver for staggered six-year terms. The Board is the sponsor, administrator and trustee of the assets of the Plan. The Board has delegated certain responsibilities regarding the Plan administration through a delegation resolution to the Chief Human Resources Officer and to the Chief Finance Officer. The delegation resolution instructs the CEO/Manager to create an advisory committee, with representation from the Finance, the Human Resources, and the Legal divisions, for the purpose of making recommendations to the CEO/Manager, the Chief Finance Officer and the Chief Human Resources Officer regarding the Retirement Program. The advisory committee, in and of itself, has no decision-making authority. The Plan is exempt from compliance with the Employee Retirement Income Security Act of 1974, as amended, as it is a governmental plan.

Various asset classes and investment manager styles are used to create a broadly diversified portfolio. The Board develops long term asset allocation ranges, while the Chief Finance Officer is charged with developing and implementing a current asset allocation and rebalancing strategy, which is designed to reflect, and be consistent with the Board approved long term asset allocation ranges. Please refer to the notes of the financial statements under "Investment Policy" for more information on asset allocations.

b. Plan Membership

All regular and discretionary employees of the Board become participants of the Plan upon completion of the required introductory period. As of January 1, 2018, there were 1,825 Plan participants: 120 were deferred vested participants, 658 participants were retired, 1,034 participants were active and 13 were on long-term disability.

Effective January 1, 2018 the Plan was amended to allow for employee contributions. A first and second tier membership was created to define Plan members as of a specific date of employment. Tier one members are defined as employees hired prior to January 1, 2018, which includes an employee hired prior to January 1, 2018 who is in his or her required introductory period during the first portion of 2018. Tier two members are defined as employees hired or rehired on or after January 1, 2018. These changes are expected to lower the long-term liability of the Plan and help keep the Board's annual contribution stable.

c. Benefits Provided

Participants become fully vested after five years of employment. The normal retirement age is 65. Tier one members who reach age 55 and have 5 years of service are eligible to receive a reduced early retirement benefit. Unreduced retirement benefits prior to age 65 are provided for Tier one members who are a minimum of age 55, whose age and years of service total 75 on the last day of employment and whose employment ends at age 50 or later.

Tier two members who reach age 60 and have 5 years of service are eligible to receive a reduced early retirement benefit. Unreduced retirement benefits prior to age 65 are provided for employees who are 60 years of age or older and whose age and years of service total 85 on the last day of employment.

The service requirement for entitlement to spousal benefits is 5 years of service with the benefit commencing when the employee would have reached age 55 for Tier one members and age 60 for Tier two members. The Plan also provides for retirement benefits in the event of total and permanent disability, as determined by the Board.

Terminated vested participants or surviving spouses whose severance date occurs before the attainment of age 55 for Tier one members and age 60 for Tier two members, shall be eligible to elect a full single lump sum payment only in lieu of a monthly pension within 90 days of his or her severance date.

Plan benefits for Tier one members are integrated with Social Security benefits and are determined by a formula defined in the Plan document. The minimum normal benefit amount is calculated by multiplying the Plan participant's number of years of credited service times the amount of the participant's average final compensation times 1.5%. Employees with final income exceeding covered compensation receive an additional 0.45% times years of credited service times average final compensation in excess of covered compensation.

Plan benefits for Tier two members are not integrated with Social Security benefits. The minimum normal benefit amount is calculated by multiplying the Plan participant's number of years of credited service times the amount of the participant's average final compensation times 1.75%. For members hired prior to January 1, 2018 who terminate employment and are rehired on or after January 1, 2018, the benefit calculation is determined by using a combination of both Tier one and Tier two formulas.

The Plan also includes a benefit provision in the event a participant dies prior to the date the member quits, retires or is discharged. In general, the participant's spouse or beneficiary will receive 50% of the participant's accrued benefit. The Plan document contains detailed provisions regarding Plan benefits.

Benefits paid by the Plan are adjusted annually by the change in the Consumer Price Index, subject to a minimum payment equal to the amount of the initial benefit and a maximum annual increase of 4.4% for employees retiring on or after September 1, 1995 and 5% for employees who retired before September 1, 1995. Changes in the Consumer Price Index in excess of the amount of the maximum annual adjustment are applied toward future adjustments. Members with Tier one service shall be entitled to the cost-of living adjustment solely for benefits attributable to Tier one service. Tier two members are not entitled to a cost-of-living adjustment.

The Board reserves the right to amend the Plan, including its benefit provisions; however, any major changes (except termination of the Plan) made by the Board for employees hired prior to January 1, 2018 will not become effective until approved by two thirds of the participants. Any change to the Plan made by the Board for employees hired or rehired on or after January 1, 2018 does not require the approval of employees, and employees hired or rehired on or after January 1, 2018, do not have any right to approval with respect to any changes to the Plan.

d. Contributions

The Plan was established, and is sponsored and administered by the Board, under authority of Article X, Section 10.1.6 of the Charter of the City and County of Denver, Colorado. The Plan document provides for periodic Board contributions at actuarially determined amounts sufficient to accumulate the necessary assets to pay benefits when due. The Board's funding policy defines the objectives of the Board in funding the benefits to be paid by the Plan. On August 28, 2013, the Board adopted changes to the funding policy effective for 2015 and future years. The changes redefined the funding guidelines by basing the Board's contributions to the Plan on an Actuarially

Determined Contribution (ADC) calculated annually by an independent actuary, using agreed upon methods and assumptions in accordance with the Actuarial Standards Board and specified in the funding policy. Subsequently, on June 28, 2017, the funding policy was updated, which modified its objective to include employee contributions to the Plan and modified its determination of the Board's contribution to include the Plan's funding valuation results and any other facts and circumstances relevant to the funding decision. In 2018, the Board and members of the Plan made contributions totaling \$18.0 million and \$662 thousand, respectively. In 2017, the Board made contributions totaling \$18.0 million. Plan contributions were made in accordance with actuarial funding valuations performed as of January 1, 2018 and 2017.

Effective January 1, 2018 employees hired prior to January 1, 2018 will contribute 3% of their compensation that will be phased in over three years with a 1% increase each year beginning in 2018. Employees hired after January 1, 2018 will contribute 3% of their compensation beginning immediately upon hire. All employee contributions on or after January 1, 2018 are credited with an interest rate of 2.5% compounded annually. Non-vested members who leave employment are eligible to receive an actuarial equivalence of a full single lump sum payment that will not be less than the member's contribution plus associated interest. As of December 31, 2018, the total balance of non-vested member contributions plus associated interest was \$183,400. There were no refunds of contributions and interest of non-vested members in 2018.

Prior to January 1, 1992, employees were required to contribute to the Plan. The Board amended the Plan to disallow further employee contributions and determined that all amounts previously contributed to the Plan by employees would be refunded, with interest at 5% per annum, upon termination or retirement. Refund of contribution and interest payments of \$3,100 and \$23,100 were made in 2018 and 2017, respectively, for employees who retired or were terminated during the respective year. As of December 31, 2018 and 2017, for employees that contributed to the Plan prior to 1992, the total remaining employee contributions including accrued interest was \$42,500 and \$43,600, respectively. These amounts are not accrued as liabilities in the accompanying financial statements.

Note 2 – Summary of Significant Accounting Policies

a. Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting and in accordance with generally accepted accounting principles that apply to governmental accounting for defined benefit plans. Employer contributions are recognized when made, because there are no required due dates for contributions. Other additions are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan document. Plan expenses, other than benefits and refunds are recognized on the accrual basis in accordance with generally accepted accounting principles.

b. Plan Expenses

Certain expenses are paid from the assets of the Plan and are recorded as administrative expenses on the financial statements. These expenses include actuarial fees, auditing expenses, benefit payment processing fees, legal fees and other miscellaneous expenses.

Additionally, investment manager fees and investment consulting expenses are recorded as investment expenses. Some investment managers assess performance fees that are netted against gains or losses and are not classified as investment expenses. Investment expenses are based upon the best information management has as of the year-end.

Note 3 – Investments

a. *Investment Policy*

The Plan's investment policy and any changes to the policy are adopted by the Board acting in its capacity as Trustee of the Plan. The most recent version of the policy was approved on April 11, 2018. Revisions to the policy included changes to the language concerning proxy voting responsibilities, addition to the language surrounding the liquidity needs of the Plan, additional language that defines the policy review process, modification to the asset class structure by removing private real estate from the alternative asset class to a separate asset class, and revisions to the long-term asset allocation ranges.

The primary objective of the Board's investment policy is to preserve the actuarial soundness of the Plan by achieving a long term return of at least the actuarially-assumed rate of return and to prudently manage the inherent investment risks that are related to the achievement of this goal. The Board recognizes that the investment objective is long-term in nature, and that actual year to year returns achieved may be above or below the actuarially assumed rate of return.

Long term asset allocation ranges are developed based on several factors including: the long term investment goals of the Plan; the Board's tolerance for short term losses; the Plan's liquidity needs; and any legal or regulatory requirements.

As of December 31 2018, the Plan's long term asset allocation ranges were as follows:

Long Term Asset Allocation Ranges		
Asset segment	Allowable range	
	Years ended December 31	
	2018	2017
Equities	40%–65%	35%–70%
Fixed Income	10–40	10–50
Real Estate	10–20	-
Alternative	5–20	10–40

b. *Money Weighted Rate of Return*

For the years ended December 31, 2018 and 2017, respectively, the annual money weighted rate of return on Plan investments, net of investment expense, was -3.95% and 15.30%. The money weighted rate of return considers the changing amounts actually invested during a period and weights the amount of pension plan investments by the proportion of time they are available to earn a return during that period. External cash flows are determined on a monthly basis and are assumed to occur at the end of each month. External cash inflows are netted with external cash outflows, resulting in a net external cash flow in each month. The money weighted rate of return is calculated net of investment expenses.

c. *Custody and Management of Assets*

During 2018 and 2017, the Northern Trust Company served as asset custodian for all Plan assets. The Board has elected to hire professional investment managers to invest the assets of the Plan on a fully discretionary basis, subject to the investment policy of the Board. Each manager is evaluated periodically against the appropriate

benchmark for his/her asset class and style. Failure to achieve the desired result does not necessitate, nor does achievement of the desired result preclude, termination of investment managers.

During 2018 and 2017, the Plan assets were managed by the following investment managers:

Aberdeen Asset Management Inc.	Since August 2015
Advisory Research Inc.	Terminated in November 2017
Alliance Bernstein L.P.	Since May 2018
Barings LLC formerly Babson Capital Management LLC	Since August 2013
BlackRock Alternative Advisors	Since March 2012
BlackRock Institutional Trust Company N.A.	Since May 2016
Dimensional Fund Advisors, LP	Since February 2008
Harbert Management Corporation	Since July 2014
Harding Loevner Funds, Inc.	Since August 2011
Horsley Bridge Venture	Since July 2015
Northern Trust Investments, N.A.	Since July 2006
Principal Global Investors, LLC	Since March 2016
Fidelity Institutional Asset Management	Since July 2011
RREEF America LLC	Since January 2015
UBS Realty Investors, LLC	Since May 1998
Vanguard Group, Inc.	Terminated in May 2017
Winslow Capital Management, LLC	Since August 2011

d. Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name.

All securities are held in a bank trust account in the Plan's name by the Plan's custodian except for investments in mutual and commingled funds, and limited partnerships, which by their nature, may have an independent custodian for the fund assets. Investments in short term investment funds and in a domestic equity index fund are held in a SEC registered pooled fund managed by the fund's custodian bank. Cash for benefit payments transferred to the benefit payment service provider immediately prior to the payment date is held in an omnibus account held in a commercial bank and not in the Plan's name and therefore, is exposed to custodial risk. As of December 31, 2018 and December 31, 2017, \$1.8 and \$1.6 million, respectively, was subject to custodial credit risk.

e. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investment. Since the debt investment portfolio may contain holdings with prepayments and variable cash flows, an analysis of interest rate risk using the segmented time distribution method is presented in the following schedule:

Schedule of Interest Rate Risk – Segmented Time Distribution of Investment Maturities as of December 31, 2018

<u>Investment type</u>	<u>Fair value/NAV</u>	<u>Less than 1 year</u>	<u>1 to 6 years</u>	<u>6 to 10 years</u>	<u>10+ years</u>	<u>Maturity not determined**</u>
Other fixed income funds	\$ 73,791					73,791
Total	\$ 73,791	—	—	—	—	73,791

**Amounts represent investments in commingled funds. Maturities of individual securities held by the funds are not reported by the fund.

f. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. As of December 31, 2018, the Plan has no single issuer that exceeds 5% of total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in diversified mutual funds, external investment pools, and other pooled investments are excluded.

g. Credit Risk

Credit risk is the risk that an issuer or other counterparty to a debt instrument will not fulfill its obligations to the Plan. There are no Plan wide policy limitations for credit risk exposures within the portfolio. Each portfolio is managed in accordance with an investment contract that is specific as to permissible credit quality ranges, the average credit quality of the overall portfolios, and issuer concentration.

The quality ratings of investments in fixed income securities as described by Standard & Poor's and Moody's rating organization as of December 31, 2018 are listed below. For securities with split ratings, the lowest rating is shown.

Schedule of Credit Risk as of December 31, 2018

<u>Investment type</u>	<u>Quality rating</u>	<u>Fair value</u>	<u>Percentage of asset class</u>
Other fixed income funds	NR/NA ¹	\$ 73,791	100%
Total fixed income securities		\$ 73,791	

¹ NR/NA indicates the securities were either not able to be categorized into any other ratings or the rating was not available to the custodian.

h. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment or a deposit. The Plan holds investments in mutual funds and hedge funds whose underlying securities are invested in multiple foreign currencies and are subject to foreign currency risk

The following table provides the Plan's maximum exposure to foreign currency risk as a percentage of its asset class as of December 31, 2018:

Schedule of Assets in Foreign Currencies

	Percentage of asset class invested in foreign currencies
Equities	
Common stock funds	27.60
Hedge funds	47.40
Private equity	2.30

i. Derivatives

Derivatives are financial instruments whose values depend upon, or are derived from, the value of something else, such as one or more underlying investments, indexes or currencies. Derivatives may be used both for hedging and to enhance returns. Derivatives may be traded on organized exchanges, or individually negotiated transactions with other parties, known as over the counter derivatives. Derivatives involve special risks and costs and may result in losses to the Plan. The successful use of derivatives requires sophisticated management, and, to the extent that derivatives are used, the Plan will depend on the investment managers and their advisors to analyze and manage derivatives transactions.

Certain commingled funds held by the Plan at the year-end were permitted through their individual investment guidelines to use derivative instruments, including forwards, futures, swaps, and options. Disclosures about derivative holdings of the commingled fund managers can be found in their respective audited financial statements. The Plan did not directly own any derivatives as of December 31, 2018 and 2017.

j. Fair Value of Investments

The Governmental Accounting Standards Board (GASB) implemented statement 72, which addresses accounting and financial reporting issues related to fair value measurements. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The Plan has adopted GASB statement 72 and categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

The Plan has the following recurring fair value measurements as of December 31, 2018 and 2017:

Investments and Derivative Instruments Measured at Fair Value
 (\$ in thousands)

		2018		
		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Investments by fair value level				
Debt securities				
Other fixed income funds	\$	73,791	73,791	
Total debt securities		73,791	-	-
Equity securities				
Common stock funds		184,527	171,512	13,015
Total equity securities		184,527	171,512	13,015
Total investments by fair value level	\$	258,318	171,512	86,806
Investments measured by the net asset value (NAV)				
Real estate funds	\$	51,681		
Hedge funds		18,519		
Private equity funds		9,912		
Total investments measured by the NAV		80,112		
Total investments measured at fair value	\$	338,430		
		2017		
		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2017				
Investments by fair value level				
Debt securities				
Other fixed income funds	\$	55,018	-	55,018
Total debt securities		55,018	-	55,018
Equity securities				
Common stock funds		209,317	191,058	18,259
Total equity securities		209,317	191,058	18,259
Total investments by fair value level	\$	264,335	191,058	73,277
Investments measured by the net asset value (NAV)				
Real estate funds	\$	52,169		
Hedge funds		33,981		
Private equity funds		6,397		
Total investments measured by the NAV		92,547		
Total investments measured at fair value	\$	356,882		

Equity securities, fixed income funds and common stock funds classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued based on evaluated prices using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs. Pricing for all securities was provided by a third-party pricing vendor and developed in accordance with the provisions of GASB Statement No. 72. The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) as of December 31, 2018 and 2017 is presented on the following table:

Investments Measured at the NAV

(\$ in thousands)

			2018	
	NAV	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Real estate funds	\$ 51,681	\$ 1,519	Quarterly/None	45-90 days
Hedge funds	18,519	-	Quarterly	45-90 days
Private equity funds	9,912	3,130	None	N/A
Total investments measured at the NA \$	<u>80,112</u>	<u>4,649</u>		
2017				
Real estate funds	\$ 52,169	\$ 1,762	Quarterly/None	45-90 days
Hedge funds	33,981	-	Quarterly	45-90 days
Private equity funds	6,397	5,971	None	N/A
Total investments measured at the NA \$	<u>92,547</u>	<u>7,733</u>		

Real Estate Funds

This fund category included three open-end and one closed-end real estate fund. Open-end funds are reported at fair value based upon the NAV of shares/units held at year end, provided by fund managers. The closed end fund, Harbert United States Real Estate Fund V, L.P., is reported at fair value based upon the net value of the Plan's ownership interest in partners' capital, as provided by the investment manager.

Investments in the open-end real estate funds can be redeemed with the fund managers as of the end of a calendar quarter. Redemption requests are subject to certain restrictions and the availability of cash. Should redemption requests exceed such available cash, the funds prorate available cash among withdrawing investors according to the ratio of the requesting investor's units to the total units of all investors then requesting redemptions. Any redemption request that is not fully honored in any given quarter is deemed effective in following quarters until completed. The funds are not obligated to sell assets, borrow funds, alter investment or capital improvement plans or reduce reserves in order to honor redemption requests.

The investment in the closed-end fund, which represents approximately 18.7% of the value of the investments in this type, cannot be redeemed. Distributions from the fund are received as the underlying investments of the funds are liquidated. It is expected that the fund life of the underlying assets will be 10 years from the initial draw down date with two one-year extensions, at the discretion of the manager.

Hedge Funds

This fund category includes an investment in one hedge fund that is a multi-strategy fund pursuing a variety of absolute return strategies, investing in a wide range of financial instruments, including, but not limited to, long or short positions in U.S. or non-U.S. publicly traded or privately issued or negotiated common stocks, preferred stocks, stock warrants and rights, corporate or sovereign debt, bonds, notes or other debentures or debt participations, commodities, partnership interests, interests in investment companies, convertible securities, swaps, options (purchased or written), swaptions, futures contracts and other derivative instruments markets and relative value, as well as private investment funds (hedge fund of funds). The fair values of the investments in this category have been determined using the NAV per share of the investments, as provided by the

investment manager. The fund limits the amount that can be redeemed each quarter to 25% of each investor's total investment.

Private Equity Funds

This fund category includes investments in two private equity fund-of-funds, which invest in private investment funds. Aberdeen U.S. Private Equity VI, L.P., which is a buyout fund-of-funds, offers a concentrated multi-manager approach with 14-16 private equity managers along with selective co-investments and secondary investments and focuses on small-to-medium sized companies. Horsley Bridge Venture XI, L.P., which is a venture capital fund-of-funds, is expected to invest in 15-20 established and emerging private equity managers providing seed and early stage exposure to the technology sector in the United States, Europe and Asia.

Private equity funds are reported at fair value based upon the net value of the Plan's ownership interest in partners' capital, as provided by the investment managers.

The investment in the private equity funds of funds can never be redeemed. Distributions from each fund will be received as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 12 to 15 years.

k. Income Taxes

Pursuant to a determination letter received from the Internal Revenue Service (IRS) dated June 11, 2014 for amendments enacted through June 27, 2012, the Plan is exempt from federal income taxes. Although the Plan has been subsequently amended, the Board is of the opinion that the Plan, as amended, meets the IRS requirements and, therefore, continues to be tax exempt.

l. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial values at the date of the financial statements. Actual results could differ from these estimates.

Note 5 – Net Pension Liability of Denver Water

The components of the net pension liability of Denver Water at December 31, 2017 and 2016 were as follows:

	Years ended December 31,	
	(\$ in thousands)	
	2018	2017
Total pension liability	\$ 441,036	418,036
Plan fiduciary net position restricted for pension	(342,823)	(360,715)
Denver Water's net pension liability	\$ 98,213	57,321
Plan fiduciary net position restricted for pension as a percentage of the total pension liability	77.73%	86.29%

a. Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2018 and January 1, 2017 with a measurement date of December 31, 2018 and 2017 and calculated based on the discount rates and actuarial assumptions below.

	Years ended December 31,	
	2018	2017
Inflation	2.75%	2.75%
Salary increases: age-based rates from	6.25 to 3.35	6.25 to 3.35
Investment rate of return	7.00%	7.00%

The mortality rates for 2018 and 2017 were determined using the Combined RP-2014 Healthy Employee Mortality Tables projected with scale MP-2016 for pre- and post-retirement while the Combined RP-2014 Disabled Annuitant Mortality Tables projected with scale MP-2016 was used for post-disablement.

The actuarial assumptions used in the January 1, 2018 and the January 1, 2017 valuation were based on an actuarial experience study for the period 2011-2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of the annualized long-term geometric mean return for each major asset class included in the pension plan's target asset allocation as of December 31, 2018 and 2017 are summarized in the following table.

	December 31, 2018		December 31, 2017	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
Asset class:				
Domestic fixed income	17.00%	1.50%	17.00%	0.75%
Domestic equity	30.00	4.90	30.00	4.60
International equity	20.00	5.00	20.00	4.75
Private equity	8.00	6.25	8.00	5.10
Real estate	15.00	4.00	15.00	3.50
Hedge funds	5.00	3.25	5.00	2.80
Bank loans	5.00	2.12	5.00	2.10
	100.00%		100.00%	

b. Discount Rate

The discount rate used in the 2018 and 2017 actuarial valuation to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed Plan member contributions would be made at the current actuarially determined contribution rate and employer contributions would be made at rates equal to the difference between actuarially determined contribution rates and member rates. Based on these

assumptions, the pension plan's fiduciary net position restricted for pension was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

c. Sensitivity of the Net Pension Liability to changes in the Discount Rate

The following presents the net pension liability of the Plan, calculated using the discount rate of 7.00% for 2018 and 2017 as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate.

(\$ in thousands)	1% Decrease <u>6.00%</u>	Current discount rate <u>7.00%</u>	1% Increase <u>8.00%</u>
2018			
Net pension liability	\$ 150,365	98,213	54,223
2017			
Net pension liability	\$ 105,633	57,321	15,564

Note 6 - Related Party Transactions

An affiliate of the Plan's custodian, Northern Trust Investments, N.A., is an investment manager for the Plan, which managed \$72.8 million and \$76.1 million of the Plan's investments at December 31, 2018 and 2017, respectively. For the years ended December 31, 2018 and 2017, the Plan incurred approximately \$15,700 and \$27,700, respectively, in management fees with this investment manager.

Note 7 – Plan Amendment

On December 5, 2018 the Plan was amended to address necessary Plan changes from transitioning to a third-party administrator for benefit payment services. The changes to the Plan addressed credited service for participants on short-term and long-term disability and on active military leave who return to work, covered compensation for participants on long-term disability, return of employee contributions when deferred vested participants die before receiving benefits, timing of certain elections of lump sum benefits, and timing for elections of benefits.

In December of 2017, the Plan was amended with an effective date of January 1, 2018 to clarify the actuarial table used for actuarial equivalence for the level income option, clarification of which provisions apply to members hired prior to January 1, 2018 and rehired on or after January 1, 2018, and clarification on the non-specific Plan language regarding the partial lump sum calculation so that it is consistent with the full lump sum calculation.

On March 22, 2017 the Plan was amended to add definitions of exempt, non-exempt, and part-time employees to clarify the calculation of the 1,000 hours worked for purposes of determining credited services. In addition, the Board approved needed changes to the Plan in response to amendments to the Plan that occurred in December of 2016. In order to implement these changes, a number of amendments to the Plan were required. The following changes were made:

- The addition of definitions of Tier one and Tier two members.
- Employee contributions from both tiers will be paid from pre-tax dollars.
- Added an election to receive a refund of accumulated contributions for non-vested members.

- The interest rate credited on refunds of employee contributions made on or after January 1, 2018 will be 2.5% compounded annually.
- Eliminate mandatory distributions except for required minimum distributions.
- Require a person rehired on or after January 1, 2018 be placed in Tier two. Credited services are retained by the member if money is left in the Plan or is restored. Benefit is calculated under two formulas for rehired Tier one employees.
- Provide for a time limit on restoration of credited service for reemployed non-vested members who took a refund of contributions. Member must be reemployed within two years of termination. Member must repay the refund of accumulated contributions with 8% interest within 60 days of reemployment otherwise they will forfeit their prior credited services. Can be repaid with after tax dollars or a trustee to trustee transfer from a qualifying plan.

Tier two members

- Changed the retirement formula for Tier two members to 1.75% times their average final compensation times their years of service and will not be integrated with social security.
- Early retirement is at age 60 with 5 years of service with reduced benefit.
- Tier two members cannot vote on major changes to the Plan.
- Changed average final compensation for Tier two members to the highest 60 consecutive months in 10 years.
- A previously vested employee reemployed within two years after receiving a lump sum payment may have previous credited service restored if the employee repays the lump sum within 60 days with 8% interest.

5. Note 8 – Required Supplementary Information.

a. Schedule of Changes in Net Pension Liability and Related Ratios

Schedule I (\$ in thousands)

	2018	2017	2016	2015	2014	2013	2012	2011	2010

See accompanying independent auditors' report.

Notes to Schedule:

Valuation date:

Actuarially determined contribution rates are calculated as of January 1

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	Level dollar
Amortization period	Layered
Amortization period at 01/01/2014	15 years
Asset valuation method	3-year smoothed market
Inflation	2.75
Salary increases	Age-based rates from 6.25% to 3.35%
Investment rate of return	7.00%, net of pension plan investment expenses, including inflation
Cost of living adjustments	2.75%
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition
Turnover	Table of rates graded by years of service
Mortality	Pre-retirement – Combined RP-2014 Healthy Employee Mortality Tables projected with scale MP-2016. Post-retirement – Combined RP-2014 Healthy Annuitant Mortality Tables projected with scale MP-2016. Post-disablement – Combined RP-2014 Disabled Annuitant Mortality Tables projected with scale MP-2016.

B. Denver Water Supplemental Retirement Savings Plan

1. Independent Auditor's Reports

CliftonLarsonAllen LLP
CLAcconnect.com

INDEPENDENT AUDITORS' REPORT

The Board of Water Commissioners, City and County of Denver, Colorado
Denver Water Supplemental Retirement Savings Plan
Denver, Colorado

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position and statements of changes in fiduciary net position of the Denver Water Supplemental Retirement Savings Plan (the Plan), as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Board of Water Commissioners, City and County of Denver, Colorado
Denver Water Supplemental Retirement Savings Plan

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of December 31, 2017 and 2016, and the respective changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 19, 2018, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Broomfield, Colorado
April 19, 2018

*CliftonLarsonAllen LLP was not engaged to perform and has not performed, since the date of its report, any procedures on the financial statements addressed in such report and that the Board has not requested the consent of CliftonLarsonAllen LLP for the inclusion of its report therein.

2. Management's Discussion and Analysis (unaudited)

This is an analysis and overview of the financial activities of the Denver Water Supplemental Retirement Savings Plan (SRSP) for the years ended December 31, 2018 and 2017. This information should be read in conjunction with the financial statements and notes, which follow.

Financial Highlights

As of December 31, 2018, \$100.8 million was held in trust for the payment of SRSP benefits to the participants as compared to \$105.9 million in 2017. This represents a decrease in total SRSP fiduciary net position held in trust of \$5.1 million or 4.9%.

Additions to the SRSP fiduciary net position for 2018 and 2017 included participant contributions of \$4.4 and \$4.3 million, respectively. Participant rollovers totaled \$1.2 million in 2018 and \$986 thousand in 2017. Total Denver Board of Water Commissioners (Board) matching contributions in 2018 and 2017 were \$2.1 and \$2.0 million, respectively. The Board also contributed an additional \$4.8 million in 2017 due to a one-time non-elective contribution for the purpose of buying out employees' paid leave. The net investment loss for 2018 was \$4.5 million compared to a net investment income of \$14.3 million in 2017. The decrease in net investment income from 2017 to 2018 is primarily the result of market depreciation.

Total deductions from the SRSP fiduciary net position were \$8.3 million in 2018 and \$8.2 million in 2017. The deductions comprised retirement benefit payments of \$8.2 million, participant investment advisory fees of \$25,400, and administrative expenses of \$83,900 in 2018. In 2017, the deductions comprised retirement benefit payments of \$8.1 million, participant investment advisory fees of \$26,100, and administrative expenses of \$76,900. Total deductions in 2018 were 0.9% more than those in 2017.

The SRSP is a defined contribution plan and its purpose is to enable the participants to accumulate financial assets for their retirement. The Board matches 100% of employee contributions up to 3% of the participating employees' published hourly base pay and salary.

As of December 31, 2018, there were 859 employees contributing to the SRSP, or 90% of all eligible Denver Water employees. In comparison, as of December 31, 2017, there were 904 employees contributing to the SRSP, or 91% of all eligible Denver Water employees. There were 958 employees eligible to participate in the SRSP as of December 31, 2018 and 993 as of December 31, 2017.

Overview of the Financial Statements

The following discussion and analysis is intended to serve as an introduction to the SRSP financial statements, which follow. The statements include:

1. Statements of Fiduciary Net Position
2. Statements of Changes in Fiduciary Net Position
3. Notes to Financial Statements

The Statements of Fiduciary Net Position present the SRSP assets, liabilities and fiduciary net position as of December 31, 2018 and 2017. The Statements of Changes in Fiduciary Net Position show the additions to and deductions from SRSP fiduciary net position during 2018 and 2017.

The above financial statements are presented in accordance with the Governmental Accounting Standards Board (GASB)) Statement No. 72, *Fair Value Measurement and Application*, which provides guidance for determining a fair value measurement for financial reporting purposes and provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements, Statement No. 67, *Financial Reporting for Pension Plans* (replacing GASB 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans* and GASB 50, *Pension Disclosures*), and GASB Statement No. 34, *Basic Financial*

Statements – and Management's Discussion and Analysis – for State and Local Governments and all other applicable GASB pronouncements. These pronouncements address the requirements for financial statement presentation and certain disclosures for state and local governmental entities. The Plan's financial statements comply with all material requirements of these pronouncements.

These financial statements provide a snapshot of the SRSP assets and liabilities as of December 31 and the activities which occurred during the years presented. Both financial statements were prepared using the accrual basis of accounting as required by GASB. All investment activities have been reported based on the trade dates and have been valued based on independent outside sources.

The Notes to Financial Statements provide additional information, which is essential to have a full understanding of the basic financial statements.

Financial Analysis

The following section provides further detail of the activities within the SRSP as well as additions and deductions to the Plan. Additions to the SRSP consist of participant and employer contributions, participant rollovers, interest income on outstanding participant loans, miscellaneous income and net investment income. Deductions to the Plan are the result of benefit payments to participants, administrative expenses, and participant investment advisory fees. Comparative financial schedules depict the changes between the years 2018, 2017 and 2016.

As of December 31, the SRSP's fiduciary net position was:

	Fiduciary Net Position						
	(Amounts expressed in thousands)						
	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percentage change	Increase (decrease)	Percentage change
Mutual funds	\$ 84,892	89,528	71,074	\$ (4,636)	(5.2)%	\$ 18,454	26.0%

Total investments	<u>98,541</u>	<u>103,792</u>	<u>85,602</u>	<u>(5,251)</u>	<u>(5.1)</u>	<u>18,190</u>	<u>21.2</u>
Receivables:							
Contributions	267	235	244	32	13.6	(9)	(3.7)
Participant loans	1,953	1,929	1,920	24	1.2	9	0.5
Other receivable	—	—	2	—	—	(2)	(100.0)
Total receivables	<u>2,220</u>	<u>2,164</u>	<u>2,166</u>	<u>56</u>	<u>2.6</u>	<u>(2)</u>	<u>(0.1)</u>
Total assets	<u>100,761</u>	<u>105,956</u>	<u>87,768</u>	<u>(5,195)</u>	<u>(4.9)</u>	<u>18,188</u>	<u>20.7</u>
Total liabilities	—	8	5	(8)	(100.0)	3	60.0
Fiduciary net position	<u>\$ 100,761</u>	<u>105,948</u>	<u>87,763</u>	<u>(5,187)</u>	<u>(4.9)%</u>	<u>\$ 18,185</u>	<u>20.7%</u>

SRSP Activities

The fiduciary net position decreased by \$5.2 million or 4.9% in 2018 and increased by \$18.2 million or 20.7% in 2017. Additional details for the change in fiduciary net position are discussed on the following pages.

Additions

The money used to pay benefits is accumulated from the contributions made by the Board and each participant and from income generated by investments, including investment valuation appreciation, interest, and dividends. Earnings on investments are reported net of investment management expenses. The Board's matching contributions for 2018 and 2017 were \$2.1 and \$2.0 million, respectively. In 2016 the Board approved a new paid leave program in which, on a one-time basis only, any paid leave over an employees' target balance would be bought out by the employer and placed in the employees' retirement account. The increase in employer contributions from 2016 to 2017 of \$4.8 million was due to a one-time non-elective employer contribution for the

purpose of buying out the employees' paid leave. Net investment loss was \$4.5 million in 2018 as compared to net investment income of \$14.3 million in 2017. The decrease of net investment income from 2017 to 2018 was primarily due to market depreciation in fair value of investments.

Additions to Fiduciary Net Position
(Amounts expressed in thousands)

	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percentage change	Increase (decrease)	Percentage change
	Employer contributions	\$ 2,050	6,770	2,034	(4,720)	(69.7)%	\$ 4,736
Participant contributions	4,352	4,259	4,484	93	2.2	(225)	(5.0)
Participant rollovers	1,154	986	1,155	168	17.0	(169)	(14.6)
Participant interest on loans	84	82	67	2	2.4	15	22.4
Miscellaneous income	16	24	25	(8)	(33.3)	(1)	(4.0)
Net investment income(loss)	(4,537)	14,299	5,858	(18,836)	(131.7)	8,441	144.1
Total additions	\$ 3,119	26,420	13,623	(23,301)	(88.2)%	\$ 12,797	93.9%

Deductions

Benefits paid to participants during the year represent the majority of the deductions from the SRSP. In 2018 and 2017, benefits paid were \$8.2 and \$8.1 million, respectively, an increase of 0.8%. In comparison, benefits paid to participants increased 51.7% in 2017 over 2016. The change in the amount of benefit payments from year to year is attributed to the number of participants choosing to take lump-sum distributions at retirement in any one year and to changes in the number of participants receiving benefits in the SRSP.

Administrative expenses for the SRSP were \$83,900 in 2018 and \$76,900 in 2017. Administrative fees are calculated based upon a percentage of the fair value of investments. In 2018 and 2017, participant investment advisory fees were \$25,400 and \$26,100, respectively. Please refer to note 4 of the financial statements for a detailed explanation of SRSP administrative expenses.

Deductions from Fiduciary Net Position
(amounts expressed in thousands)

	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percentage change	Increase (decrease)	Percentage change
	Benefits paid to participants	\$ 8,197	8,132	5,362	65	0.8%	\$ 2,770

See accompanying notes to financial statements.

3. Notes to the Financial Statements

Note 1 – Plan Description

The Board of Water Commissioners, City and County of Denver, Colorado (the Board), adopted the Denver Water Supplemental Retirement Savings Plan in 1999 (SRSP). The Board operates a water utility created by the Charter of the City and County of Denver, Colorado.

The Board is made up of five members appointed by the Mayor of the City and County of Denver for staggered six-year terms. The Board is the sponsor of the Plan. The Board has delegated certain responsibilities regarding the Plan administration through a delegation resolution to the Chief Human Resources Officer and to the Chief Finance Officer. The delegation resolution instructs the CEO/Manager to create an advisory committee, with representation from the Finance, the Human Resources, and the Legal divisions, for the purpose of making recommendations to the CEO/Manager, the Chief Finance Officer and the Chief Human Resources Officer regarding the Retirement Program, including this SRSP. The advisory committee, in and of itself, has no decision-making authority.

The Board has engaged with Great West Life & Annuity Insurance Company d/b/a Empower Retirement (Empower Retirement) to provide recordkeeping and communication services for the Plan. The Board engages investment experts to monitor and recommend changes in the investment options included in the Plan.

a. General

The SRSP is a defined contribution plan covering all regular and discretionary employees of Denver Water who have completed the required introductory period and is qualified under section 401(a) paragraph (k) in accordance with the regulations of the Internal Revenue Code of 1986, as amended (IRC). The purpose of the SRSP is to provide supplemental retirement and other related benefits for eligible employees. As of December 31, 2017, there were 904 active employees out of 993 eligible employees participating in the SRSP. This compares with 928 active employees out of 1,017 eligible employees participating in the SRSP as of December 31, 2016. The SRSP and the trust established by the SRSP are maintained for the exclusive purpose of providing benefits to eligible employees and their beneficiaries, and for defraying reasonable administrative expenses. The SRSP provisions and contribution requirements are established and may be amended by the Board.

The SRSP is exempt from compliance with the Employee Retirement Income Security Act of 1974, as amended, as it is a governmental plan.

b. Contributions

Each year a participant may contribute up to 97% of pretax annual compensation, but not less than \$10 per pay period up to an annual maximum amount as codified by the Internal Revenue Service (IRS). Participants direct the investment of their contributions into various investment options offered by the SRSP. The Board makes a matching contribution in an amount equal to 100% of the first 3% of base compensation that each participant contributes to the SRSP. The SRSP was amended in 2013 to authorize employer discretionary contributions to qualifying participants. There were no discretionary contributions in 2017 and \$27,050 of discretionary contributions in 2016.

Employer contributions must be made no later than the last day of the Plan year for which the contribution is made. The employer may suspend, reduce or eliminate future employer contributions and may rescind such action at any time. The matching contribution is allocated to the participants' accounts and is participant directed.

Although it has not expressed any intent to do so, the Board may change the amount of or discontinue the matching or employer discretionary contribution at any time

c. Participant Accounts

Each participant's account reflects the cumulative amount of each participant's contribution along with the employer's matching and discretionary contribution including any income, gains, losses, or increases or decreases in fair value attributable to the investment of contributions, and further reflects any distributions to the participant or his or her beneficiary and any fees or expenses charged against the participant's account. The amount of the employer discretionary contribution, if any, for a Plan year is determined by the employer, and subject to Treasury Regulations under IRS Code §415 and 401(a)(17).

d. Vesting

A participant's interest in his/her participant and employer matching contributions is fully vested and non-forfeitable.

In addition to the participant's and employer contributions, any discretionary contributions to qualifying participants become fully vested upon completing seven years of service, the qualifying participant attaining the age of 65 while employed by the employer, by termination due to the qualifying participant's death or disability, by termination of employment due to serious health conditions of the qualifying participant's spouse, and by termination, by the employer for reasons other than serious cause.

In the event of forfeitures due to termination of the qualifying participant prior to vesting the non-vested portion of the qualifying participant's discretionary employer contribution account will be used to pay Plan administrative expenses. Any excess, after paying Plan administrative expenses, will be allocated to participant accounts as employer contributions on the last day of the Plan year during the year of the forfeiture.

e. Participant Loans

Only active employees who participate in the SRSP may request a loan and the participant must have a minimum vested account balance of \$2,000.

The minimum loan amount that a participant may request is \$1,000 and the maximum is \$50,000 or 50% of the vested account balance, whichever is less. The \$50,000 maximum loan amount is reduced by the highest loan balance during the past 12 months minus the loan balance on the date a new loan is made. If a participant has an outstanding loan through another qualified plan, 403(b) plan, or a 457 plan maintained by the same employer, the maximum loan amount available must be reduced by the highest outstanding loan balance during the past 12 months. The participant is responsible for ensuring that the aggregated loan amount on all plans sponsored by the same employer is the lesser of \$50,000 or 50% of the vested account balance.

The Plan offers two loan options to the participants. One is a General-Purpose Loan that has a term of twelve to sixty (12-60) months. No reason or documentation, other than a signed promissory note, is required when a participant requests a General-Purpose Loan. The other is a Principal Residence Loan that has a term of 72-180 months, which must be utilized for the purchase of a primary residence only.

Participants are charged a loan origination fee that is deducted from the original loan amount as well as an annual administrative fee that is deducted quarterly from the participants account. Outstanding loans are assessed an interest rate of 1% over the prime rate published in the Wall Street Journal on the first business day of the month before the loan is originated. The interest rate for General Purpose Loans are fixed for the life of the loan. For more information regarding the loan policy, participants may refer to the Plan Document.

f. Payment of Benefits

On termination of service, a participant with a balance of \$1,000 or less will have the amount automatically distributed in a lump sum as soon as feasibly possible. A participant whose account is greater than \$1,000 may elect to receive either a single lump-sum amount equal to the value of the participant's interest in his or her account at termination or take periodic distributions provided they meet minimum distribution requirements of IRC code section 401(a)(9). Distributions must start no later than age 70½. Participants may also specify that funds roll directly from their account to an eligible retirement plan. Upon the death of a participant, the account is paid to the participant's beneficiaries in a single lump sum.

g. Record Keeping, Custody and Management of Assets

Effective December 29, 2015, the Board amended the original agreement with Empower Retirement for an additional five years of recordkeeping and communication services related to the SRSP. Trust services are provided by Orchard Trust Company, LLC, through a separate contract with the Board. Fees for the trust services are paid by the participants. Assets allocated to the various funds are managed by investment professionals hired by the fund.

h. SRSP Termination

Though it has not expressed any intent to do so, the Board has the right under the SRSP to terminate the SRSP at any time with respect to any or all participants by resolution of the Board. Upon discontinuance of the SRSP, the account of each participant would remain fully vested and non-forfeitable.

Note 2 – Summary of Significant Accounting Policies

a. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Board to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates

b. Basis of Accounting

The SRSP financial statements are prepared using the accrual basis of accounting and in accordance with generally accepted accounting principles that apply to governmental accounting for defined contribution plans. Contributions are recognized when earned without regard to the date of actual collection. Expenses are recognized when due and payable. Benefit payments and refunds are recognized upon distribution.

c. Income Recognition

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses are reflected as net appreciation or depreciation in fair value of investments in the accompanying statements of changes in fiduciary net position. This is determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price or year-end fair value.

d. Tax Status

The SRSP is intended to be an eligible employee retirement plan under Section 401(a) of the Code. The Board and the SRSP's tax counsel believe that it is currently designed and operating in compliance with the applicable requirements of the Code.

Note 3 – Investments

The following table lists the investment options available to participants and the value of each option at December 31, 2018 and 2017 (amounts are expressed in thousands):

	2018	2017
American Beacon Small CP Val Institutional	\$ 3,190	3,765
American Funds Washington Mutual	7,284	9,271

Vanguard Target Retirement 2060 Inv	467	356
Vanguard Target Retirement 2065 Inv	10	—
Vanguard Target Retirement Income Inv	896	765
Vanguard Total Intl BD Idx Admiral	458	277
Vanguard Treasury Money Market Inv	1,030	856
Total investments	<u>\$ 98,541</u>	<u>103,792</u>

The SRSP offered 26 mutual funds (including 12 target date funds), one money market fund and one commingled fund as investment options as of December 31, 2018. In 2017, the SRSP offered 25 mutual funds (including 11 target date funds), one money market fund and one commingled fund as investment options. The net investment loss (including gains and losses on investments bought and sold, as well as income received on investments

during the year) during 2018 was approximately \$4.5 million. Comparatively, net investment income during 2017 was approximately \$14.3 million.

a. Fair Value Measurements

The SRSP has the following recurring fair value measurements as of December 31, 2018 and 2017:

Investments Measured at Fair Value (\$ in thousands)

	December 31, 2018	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Mutual Funds	\$ 84,892	84,892	-	-
Commingled Funds	12,619	-	12,619	-
Total investments by fair value level	\$ 97,511	84,892	12,619	-
Investments measured at amortized cost				
Money market funds	\$ 1,030			
Total investments measured at fair value	\$ 98,541			
	December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Mutual Funds	\$ 89,528	89,528	-	-
Commingled Funds	13,409	-	13,409	-
Total investments by fair value level	\$ 102,937	89,528	13,409	-
Investments measured at amortized cost				
Money market funds	\$ 855			
Total investments measured at fair value	\$ 103,792			

Funds classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Funds classified in Level 2 of the fair value hierarchy are valued based on evaluated prices using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs.

Note 4 – Administrative Expenses

The majority of investment options available to participants in the SRSP are registered mutual funds. The dollar amount of fees paid by the SRSP for investment management and administrative services on these funds are not separately disclosed. The fees are calculated and withdrawn from all participant accounts on a monthly basis. Revenue generated from the funds that had revenue sharing arrangements with the recordkeeper (Frost Total Return Bond Institutional, Northern Global Sustainability, Baron Growth Institutional and Cohen & Steers Institutional Global Realty) were credited to participants with account balances in the revenue-paying fund, based on the average daily balance of the participant's investment in such fund(s) for the month.

The assessed recordkeeping and communication fee for 2018 totaled \$83,900. Revenue sharing from 12(b)(1) fees reported by the recordkeeper for the same period was \$15,500. The assessed recordkeeping and communication fee for 2017 totaled \$76,900 and revenue sharing from 12(b)(1) fees reported by the recordkeeper for the same period was \$24,000.

Note 5 – Participant Investment Advisory Fees

The plan participants may choose to either manage their investments themselves, use an online investment advice tool or they can choose to have their account managed as an ancillary service available through the Plan recordkeeper. Participants who choose to use the online investment advice tool pay an annual fee assessed quarterly. Participants choosing to have their account managed pay an annual tiered fee, assessed quarterly, based on the participant's account balance. In 2018 and 2017, total participant investment advisory fees paid were \$25,400 and \$26,100, respectively.

Note 6 – Risks and Uncertainties

a. Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the SRSP will not be able to recover its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the SRSP, and are held by either the counterparty or the counterparty's trust department or agent, but not in the SRSP name.

The SRSP investments are evidenced by mutual fund shares and commingled fund units. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*, investments in mutual funds should be disclosed but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The SRSP investment is the mutual fund share and commingled fund unit, not the underlying security. Additionally, investments in open-end mutual funds are not subject to custodial credit risk disclosures.

b. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. If 5% or more of the total assets of the SRSP are invested with one issuer then the investment is considered to have concentration risk. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds or pools are excluded from concentration of credit risk requirements. The SRSP investment options consist of diversified mutual funds, one commingled fund, and one money market fund and are not subject to and therefore do not have concentration risk.

c. Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. The SRSP investment policy does not specifically address the quality rating of the investments. Each participant is responsible for determining the risks and commensurate returns of their portfolio. The SRSP investment options consist of diversified mutual funds, one commingled fund, and one money market fund and therefore do not have credit risk. The mutual funds, commingled fund, and money market fund have not been rated by any nationally recognized rating agency (Moody's, Fitch and Standard & Poor's rating agencies).

d. Interest Rate Risk

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. Some of the mutual funds held by the SRSP invest in debt instruments that are subject to

interest rate risk. The schedule presented below provides an indication of the interest rate risk associated with the funds holding debt obligations as of the most recent information available:

Schedule of maturity, duration and credit quality

	Average effective maturity (years)	Average effective duration (years)	Average credit quality
Target date funds:			
Vanguard Target Retirement 2015 Inv	7.51	5.83	AA
Vanguard Target Retirement 2020 Inv	8.02	6.17	AA
Vanguard Target Retirement 2025 Inv	8.74	6.64	A

Vanguard Inflation Protected	8.20	7.57	AAA
Vanguard Total Intl Bd Index Admiral	9.30	7.90	A
Commingled funds:			

e. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The SRSP diversified selection of mutual funds encourages the participants to employ diversification, asset allocation, and quality strategies to minimize risks. Each participant is responsible for determining the risks and commensurate returns of their portfolio.

The SRSP exposure to foreign currency risk measured by fund allocation to foreign securities as of the most recent information available is summarized in the table below:

	invested in foreign securities
American Beacon Small CP Val Institutional	2.86%
American Funds Washington Mutual	9.20
Arrowstreet INTL Equity ACWI Ex US Class A	97.90
Baron Growth Institutional	2.63
Cohen & Streers Institutional Global Realty	47.96
Fidelity Global Ex US Index	94.13

Vanguard Target Retirement Income Inv	30.04
Vanguard Total Intl BD Idx Admiral	96.71

Note 7 – SRSP Amendments

On December 6, 2017, the SRSP was amended to revise the definition of compensation and the definition of spouse and permitted deferral of compensation as a percentage or a dollar amount.

C. Denver Water 457 Deferred Compensation Plan

1. Independent Auditors Report

CliftonLarsonAllen LLP
CLAAconnect.com

INDEPENDENT AUDITORS' REPORT

The Board of Water Commissioners, City and County of Denver, Colorado
Denver Water 457 Deferred Compensation Plan
Denver, Colorado

Report on the Financial Statements

We have audited the accompanying statements of fiduciary net position and statements of changes in fiduciary net position of the Denver Water 457 Deferred Compensation Plan (the Plan), as of and for the years ended December 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Plan's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Board of Water Commissioners, City and County of Denver, Colorado
Denver Water 457 Deferred Compensation Plan

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the Plan as of December 31, 2017 and 2016, and the respective changes in fiduciary net position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 19, 2018, on our consideration of the Plan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Plan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Plan's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

**CliftonLarsonAllen LLP was not engaged to perform and has not performed, since the date of its report, any procedures on the financial statements addressed in such report and that the Board has not requested the consent of CliftonLarsonAllen LLP for the inclusion of its report therein.*

2. Management's Discussion and Analysis

This is an analysis and overview of the financial activities of the Denver Water 457 Deferred Compensation Plan (Plan) for the years ended December 31, 2018 and 2017. This information should be read in conjunction with the Plan financial statements and notes, which follow.

Financial Highlights

As of December 31, 2018, \$32.7 million was held in trust for the payment of Plan benefits to the participants as compared to \$34.1 million in 2017.

Total fiduciary net position decreased by \$1.5 million or 4.3% in 2018 as compared to an increase in 2017 of \$1.6 million or 4.9%. The decrease in 2018 and the increase in 2017 was primarily due to changes in the fair values of the Plan's investments.

In 2018, the Plan had a net investment loss of \$1.1 million compared to a net investment income of \$4.4 million in 2017. Participant contributions were approximately \$2.1 million in 2018 and \$2.0 million in 2017. Deductions from fiduciary net position totaled \$3.1 million in 2018 and \$4.9 million in 2017 and were primarily for benefit payments to participants.

The Plan is a deferred compensation plan and its primary purpose is to attract and retain qualified personnel by permitting eligible employees to defer a portion of their current income for their retirement. At December 31, 2018, there were 385 participating employees in the Plan, which constituted 40% of all eligible Denver Water employees. This compares to 391 participating employees in the Plan, constituting 39% of all eligible employees in 2017. There were 958 employees eligible for the Plan as of December 31, 2018, compared with 993 employees eligible for the Plan as of December 31, 2017.

Overview of the Financial Statements

The following discussion and analysis is intended to serve as an introduction to the Plan's financial statements, which follow. The statements include:

1. Statements of Fiduciary Net Position
2. Statements of Changes in Fiduciary Net Position
3. Notes to Financial Statements

The Statements of Fiduciary Net Position presents the Plan's assets, liabilities and fiduciary net position as of December 31, 2018 and 2017. The Statements of Changes in Fiduciary Net Position show the additions to and deductions from Plan fiduciary net position during 2018 and 2017.

The above financial statements are presented in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, which provides guidance for determining a fair value measurement for financial reporting purposes and provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements, Statement No. 67, *Financial Reporting for Pension Plans* (replacing GASB 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans* and GASB 50, *Pension Disclosures*), and GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis—for State and Local Governments*, and all other applicable GASB pronouncements. These pronouncements address the requirements for financial statement presentation and certain disclosures for state and local governmental entities. The Plan's financial statements comply with all material requirements of these pronouncements.

These financial statements provide a snapshot of the Plan's assets and liabilities as of December 31 and the activities which occurred during the years presented. Both financial statements were prepared using the accrual basis of accounting as required by GASB. All investment activities have been reported based on trade dates and have been valued based on independent outside sources.

The Notes to Financial Statements provide additional information, which is essential to have a full understanding of the basic financial statements.

Financial Analysis

The following section provides further detail of the activities within the Plan as well as additions and deductions to the Plan. Additions to the Plan consist of participant and employer contributions, participant rollovers, interest income on outstanding participant loans, miscellaneous income, and net investment income. Deductions to the Plan are the result of benefit payments to participants, administrative expenses and participant investment advisory fees. Comparative financial schedules depict the changes between the years 2018, 2017 and 2016.

As of December 31, the Plan fiduciary net position was:

Fiduciary Net Position							
(Amounts expressed in thousands)							
	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percent change	Increase (decrease)	Percent change
Mutual funds	\$ 24,989	25,363	22,680	(374)	(1.5)%	\$ 2,683	11.8%

Total investments	<u>32,374</u>	<u>33,872</u>	<u>32,264</u>	<u>(1,498)</u>	<u>(4.4)</u>	<u>1,608</u>	<u>5.0</u>
Receivables:							
Contributions	84	77	66	7	9.1	11	16.7
Participant loans	209	194	209	15	7.7	(15)	(7.2)
Other receivable	—	—	1	—	—	(1)	(100.0)
Total receivables	<u>293</u>	<u>271</u>	<u>276</u>	<u>22</u>	<u>8.1</u>	<u>(5)</u>	<u>(1.8)</u>
Total assets	<u>32,667</u>	<u>34,143</u>	<u>32,540</u>	<u>(1,476)</u>	<u>(4.3)</u>	<u>1,603</u>	<u>4.9</u>
Total liabilities	—	2	1	(2)	(100.0)	1	100.0
Fiduciary net position	<u>\$ 32,667</u>	<u>34,141</u>	<u>32,539</u>	<u>(1,474)</u>	<u>(4.3)%</u>	<u>\$ 1,602</u>	<u>4.9%</u>

Plan Activities

The decrease to net position in 2018 was primarily due to the depreciation of the fair value of investments. The total decrease in Plan net position was \$1.5 million or 4.3%. In 2017, Plan net position increased by \$1.6 million or 4.9%, as compared to 2016. Additional details for the change in net position are discussed on the following page.

Additions

The money used to pay benefits is accumulated from the contributions made by each participant and from income generated from the participants' investments including investment appreciation, interest and dividends. Earnings on investments are reported net of investment management expenses. Investment loss net of investment manager fees during 2018 was \$1.1 million as compared to a net investment income of \$4.4 million in 2017.

Additions to Fiduciary Net Position

(Amounts expressed in thousands)

	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percent change	Increase (decrease)	Percent change
	Participant contributions \$	2,108	2,017	2,070	91	4.5%	\$ (53)
Employer contributions	25	—	36	25	—	(36)	(100.0)
Participant rollovers	583	33	2	550	1,666.7	31	1,550.0
Participant loan interest	9	9	8	—	—	1	12.5
Miscellaneous income	5	9	12	(4.0)	(44.4)	(3)	(25.0)
Net investment income	(1,075)	4,427	1,854	(5,502)	(124.3)	2,573	138.8
Total additions \$	1,655	6,495	3,982	(4,840)	(74.5)%	\$ 2,513	63.1%

Deductions

Benefits paid to participants of \$3.1 million in 2018 and \$4.9 million in 2017 represent the majority of the deductions from the Plan. Benefits paid to participants were 36.3% less in 2018 compared to 2017 and 117.9% more in 2017 compared to 2016. The change in the amount of benefits paid to participants from year to year is attributed to the number of participants choosing to take lump sum distributions at retirement in any one year and to changes in the number of participants receiving benefits in the Plan.

Administrative expenses for 2018 and 2017 were \$26,500 and \$25,900, respectively. Administrative fees are calculated based upon a percentage of the fair value of investments. In 2018, participant investment advisory fees were \$5,400 as compared to \$5,500 in 2017. Please refer to note 4 of the financial statements for information regarding administrative expenses.

Deductions from Fiduciary Net Position

(Amounts expressed in thousands)

	Years ended December 31			2018 – 2017		2017 – 2016	
	2018	2017	2016	Increase (decrease)	Percent change	(decrease)	Percent change
	Benefits paid to participants \$	3,098	4,861	2,231	(1,763)	(36.3)%	2,630
Administrative expenses	27	25	22	2	8.0	3	13.6
Participant investment advisory fees	5	6	5	(1)	(16.7)	1	20.0
Total deductions \$	3,130	4,892	2,258	(1,762)	(36.0)%	2,634	116.7%

Requests for Information

This discussion and analysis is designed to provide a general overview of the fiduciary net position and changes in fiduciary net position as of December 31, 2018 and 2017 and for the years then ended. 4. Notes to the Financial Statements

Note 1 – Plan Description

The Denver Board of Water Commissioners, City and County of Denver, Colorado (Board) operates a water utility created by the Charter of the City and County of Denver. In 1987, the Board initiated a deferred compensation plan and adopted the Conference of Mayors' 457 Plan. The termination of the administrator of the Plan in December 2000 required the Board to adopt a new plan. In January 2001, the Board adopted the Denver Water 457 Deferred Compensation Plan (Plan). All of the investments in the old Plan were sold and the proceeds were used to purchase like kind investments in the new Plan.

The Board is made up of five members appointed by the Mayor of the City and County of Denver for staggered six-year terms. The Board is the sponsor of the Plan. The Board has delegated certain responsibilities regarding the Plan administration through a delegation resolution to the Chief Human Resources Officer and to the Chief Finance Officer. The delegation resolution instructs the CEO/Manager to create an advisory committee, with representation from the Finance, the Human Resources, and the Legal divisions, for the purpose of making recommendations to the CEO/Manager, the Chief Finance Officer and the Chief Human Resources Officer regarding the Retirement Program, including this Plan. The advisory committee, in and of itself, has no decision-making authority.

The Board has engaged with Great West Life & Annuity Insurance Company d/b/a Empower Retirement (Empower Retirement) to provide recordkeeping and communication services for the Plan. The Board engages investment experts to monitor and recommend changes in the investment options included in the Plan.

The following description of the Plan provides general information. Participants and others should refer to the Plan document for a more complete description of the Plan provisions.

a. General

The Plan is a deferred compensation plan covering all regular and discretionary employees of the Board who have completed the required introductory period. The Plan's primary purpose is to attract and retain qualified personnel by permitting them to provide for benefits in the event of their retirement or death.

The Plan is exempt from compliance with the Employee Retirement Income Security Act of 1974, as amended, as it is a governmental plan.

b. Contributions

Each year a participant may defer up to an annual maximum amount as codified by the Internal Revenue Service. The Plan will accept transfers, pursuant to Section 457 of the Internal Revenue Code (Code), of amounts deferred by an individual under another eligible deferred compensation plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan was amended in 2013 to authorize employer discretionary contributions to qualifying participants. There were \$24,500 in discretionary contributions in 2018 and no discretionary contributions in 2017. Employer contributions must be made no later than the last day of the Plan year for which the contribution is made. The employer may suspend, reduce or eliminate future employer contributions and may rescind such action at any time.

c. Participant Accounts

Each participant's account reflects the cumulative amount of each participant's deferred compensation and employer discretionary contribution (if any), including any income, gains, losses, or increases or decreases in fair value attributable to the investment of the participant's deferred compensation and employer discretionary contribution (if any), and further reflects any distributions to the participant or his or her beneficiary and any fees or expenses charged against the participant's account. The amount of the employer discretionary contribution, if any, for a Plan year is determined by the employer, and is subject to Treasury Regulations under IRS Code §415 and 401(a) (17).

d. Vesting

A participant's interest in his/her participant contributions is fully vested and non-forfeitable. Discretionary contributions to qualifying participants become fully vested upon completing seven years of service, the qualifying participant attaining the age of 65 while employed by the employer, by termination due to the qualifying participant's death or disability, by termination of employment due to serious health conditions of the qualifying participant's spouse and by termination by the employer for reasons other than serious cause. In December 2016, the Plan was amended to allow a specified dollar amount of the qualifying participant's discretionary employer contribution to become fully vested and non-forfeitable.

In the event of forfeitures due to termination of the qualifying participant prior to vesting the non-vested portion of the qualifying participant's discretionary employer contribution account will be used to pay Plan administrative expenses. Any excess, after paying Plan administrative expenses, will be allocated to participant accounts as employer contributions on the last day of the Plan year during the year of the forfeiture.

e. Participant Loans

Only active Plan participants may request a loan and the participant must have a minimum vested account balance of \$2,000. The minimum loan amount that a participant may request is \$1,000 and the maximum is \$50,000 or 50% of the vested account balance, whichever is less. The \$50,000 maximum loan amount is reduced by the highest loan balance during the past 12 months minus the loan balance on the date a new loan is made. If a participant has an outstanding loan through another qualified plan, 403(b) plan, or a 401(k) plan maintained by the same employer, the maximum loan amount available must be reduced by the highest outstanding loan balance during the past 12 months. The participant is responsible for ensuring that the aggregated loan amount on all plans sponsored by the same employer is the lesser of \$50,000 or 50% of the vested account balance.

The Plan offers two loan options to the participants. One is a General-Purpose Loan that has a term of twelve to sixty (12-60) months. No reason or documentation, other than a signed promissory note, is required when a participant requests a General-Purpose Loan. The other is a Principal Residence Loan that has a term of 72-180 months, which must be utilized for the purchase of a primary residence only.

Participants are charged a loan origination fee and it is deducted from the original loan amount as well as an annual administrative fee that is deducted quarterly and is assessed to each participant's account. The interest rate assessed to the loans is 1% over the prime rate published in the Wall Street Journal on the first business day of the month before the loan is originated.

The interest rate for General Purpose Loans is fixed for the life of the loan. For more information regarding the loan policy, participants may refer to the Plan Document

f. Payment of Benefits

On termination of service, a participant with a balance of \$1,000 or less will have the amount distributed in a lump sum as soon as feasibly possible. A participant whose account is greater than \$1,000 may elect to receive either a lump sum amount equal to the value of the participant's interest in his or her account, or leave the balance in

the Plan. Distributions from balances left in the Plan must begin no later than age 70½. When balances are paid, participants will receive payment under various payment options defined by the Plan. Upon the death of a participant, a death benefit equal to the value of the participant's account shall be payable to a designated beneficiary. The beneficiary may select from various payment options defined by the Plan.

g. Recordkeeping, Custody and Management of Assets

Effective December 29, 2015, the Board amended the original agreement with Empower Retirement for an additional five years of recordkeeping and communication services related to the Plan. Trust services are provided by Orchard Trust Company, LLC, through a separate contract with the Board. Fees for the trust services are paid by the participants. Assets allocated to the various funds are managed by investment professionals hired by the fund.

h. Plan Termination

Though it has not expressed any intent to do so, the Board has the right under the Plan to terminate the Plan at any time with respect to any or all participants by resolution of the Board.

Note 2 – Summary of Significant Accounting Policies

a. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Board to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

b. Basis of Accounting

The Plan's financial statements are prepared using the accrual basis of accounting and in accordance with generally accepted accounting principles that apply to governmental accounting for defined contribution plans. Contributions are recognized when earned without regard to the date of actual collection. Expenses are recognized when due and payable. Benefit payments and refunds are recognized upon distribution.

c. Income Recognition

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses are reflected as net appreciation or depreciation in fair value of investments in the accompanying statements of changes in net position. This is determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price or year-end fair value.

d. Tax Status

The Plan is intended to be an eligible deferred compensation plan under Section 457(b) of the Code. The Board and the Plan's tax counsel believe that the Plan is currently designed and operating in compliance with the applicable requirements of the Code.

Note 3 – Investments

The following table lists the investment options available to participants and the value of each option at December 31, 2018 and 2017 (amounts are expressed in thousands).

	<u>2018</u>	<u>2017</u>

Vanguard Total Intl BD Idx Admiral	397	62
Vanguard Treasury Money Market Inv	605	490
Total investments	<u>\$ 32,374</u>	<u>33,872</u>

The Plan offered 26 mutual fund investment options (including 12 target date funds), one money market fund and one commingled fund as of December 31, 2018. In 2017, the Plan offered 25 mutual fund investment options (including 11 target date funds), one money market fund and one commingled fund as of December 31, 2017. The Plan's investments (including gains and losses on investments bought and sold, as well as income received on investments held during the year) during 2018 and 2017 generated an investment loss of \$1.1 million and investment income of \$4.4 million, respectively.

a. Fair Value Measurement

The Plan has the following recurring fair value measurements as of December 31, 2018 and 2017:

Investments and Derivative Instruments Measured at Fair Value
 (\$ in thousands)

	December 31, 2018	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Mutual Funds	\$ 24,989	24,989	-	-
Commingled funds	6,780	-	6,780	-
Total investments by fair value level	\$ 31,769	24,989	6,780	-
Investments measured at amortized cost				
Money market funds	\$ 605			
Total investments measured at fair value	\$ 32,374			
	December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Mutual Funds	\$ 25,363	25,363	-	-
Commingled funds	8,019	-	8,019	-
Total investments by fair value level	\$ 33,382	25,363	8,019	-
Investments measured at amortized cost				
Money market funds	\$ 490			
Total investments measured at fair value	\$ 33,872			

Funds classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Funds classified in Level 2 of the fair value hierarchy are valued based on evaluated prices using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs.

Note 4 – Administrative Expenses

The majority of investment options available to participants in the Plan are registered mutual funds. The dollar amount of fees paid by the Plan for investment management and administrative services on these funds is not separately disclosed. The fees are calculated and withdrawn from all participant accounts on a monthly basis. Revenue generated from the funds which had revenue sharing arrangements with the recordkeeper (Frost Total Return Bond Institutional, Northern Global Sustainability, Baron Growth Institutional and Cohen & Steers Institutional Global Realty) were credited to participants with account balances in the revenue-paying fund, based on the average daily balance of the participant's investment in such fund(s) for the month.

The assessed recordkeeping and communication fee for 2018 totaled \$26,500. Revenue sharing from 12(b) (1) fees reported by the recordkeeper for the same period was \$4,800. The assessed recordkeeping and communication fee for 2017 totaled \$25,900. Revenue sharing from 12(b) (1) fees reported by the recordkeeper for the same period was \$9,400.

Note 5 – Participant Investment Advisory Fees

The Plan participants may choose to either manage their investments themselves, use an online investment advice tool, or they can choose to have their account managed as an ancillary service available through the Plan recordkeeper. Participants who choose to use the online investment advice tool pay an annual fee assessed quarterly. Participants choosing to have their account managed pay an annual tiered fee, assessed quarterly, based on the participant's account balance. In 2018 and 2017, total participant investment advisory fees paid were \$5,400 and \$5,500, respectively.

Note 6 – Risks and Uncertainties

a. Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of the counterparty, the Plan will not be able to recover its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent, but not in the Plan's name.

The Plan investments are evidenced by mutual fund shares and commingled fund units. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 40, Deposit and Investment Risk Disclosures, investments in these funds should be disclosed but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The Plan's investment is the mutual fund share or the commingled fund unit, not the underlying security. Additionally, investments in open-end mutual or commingled funds are not subject to custodial credit risk disclosures.

b. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. If 5% or more of the total assets of the Plan are invested with one issuer then the investment is considered to have concentration risk. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds or pools are excluded from concentration of credit risk requirements. The Plan investment options consist of diversified mutual funds, a commingled fund, and one money market fund and therefore do not have concentration risk.

c. Credit Risk

Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. The Plan investment policy does not specifically address the quality rating of the investments. Each participant is responsible for determining the risks and commensurate returns of their portfolio. The Plan investment options consist of diversified mutual funds and one commingled fund, and one money market fund and therefore do not have credit risk. The mutual funds, commingled fund, and money market fund have not been rated by any nationally recognized rating agency (Moody's, Fitch and Standard & Poor's rating agencies).

d. Interest Rate Risk

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. Some of the mutual funds held by the Plan invest in debt instruments that are subject to interest rate risk. The schedule presented below provides an indication of the interest rate risk associated with the funds holding debt obligations as of the most recent information available:

Schedule of maturity, duration and credit quality

	<u>Average effective maturity (years)</u>	<u>Average effective duration (years)</u>	<u>Average credit quality</u>
Target date funds:			
Vanguard Target Retirement 2015 Inv	7.51	5.83	AA
Vanguard Target Retirement 2020 Inv	8.02	6.17	AA
Vanguard Target Retirement 2025 Inv	8.74	6.64	A

PIMCO High Yield Institutional	5.75	3.65	BB
Vanguard Inflation Protected	8.20	7.57	AAA
Vanguard Total Intl Bd Index Admiral	9.30	7.90	A
Commingled funds:			

e. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Plan's diversified selection of funds encourages the participants to employ diversification, asset allocation, and quality strategies to minimize risks. Each participant is responsible for determining the risks and commensurate returns of their portfolio.

The Plan exposure to foreign currency risk is measured by fund allocation to foreign securities as of the most recent information available is summarized in the table (amounts are expressed in thousands).

Schedule of assets invested in foreign securities

	Percentage of fund invested in foreign securities
American Beacon Small CP Val Institutional	2.86%
American Funds Washington Mutual	9.20
Arrowstreet INTL Equity ACWI Ex US Class A	97.90

Vanguard Target Retirement Income Inv	30.04
Vanguard Total Intl BD Idx Admiral	96.71

Note 7 – Plan Amendments

On December 6, 2017 the Plan was amended to revise the definition of compensation and the definition of spouse and permitted deferral of compensation as a percentage or a dollar amount.

On April 2017, the Plan was amended to allow employees to defer their paid time off (PTO) and any back pay in accordance with the IRS 457(b) requirements.

III. INVESTMENT SECTION (UNAUDITED)

A. Employees Retirement Plan

1. Report on Investment Activity

The Northern Trust Company
50 South La Salle Street Chicago, Illinois 60603
(312) 630-6000

May 2, 2019

Plan Members, the Board of Trustees & Retirement Program Committee
Denver, Colorado

Dear Employee's Retirement Plan of the Denver Board of Water
Commissioners,

This letter reviews the performance for the Denver Water Employees Retirement Plan (DWERP) for the year ended December 31, 2018.

Northern Trust calculates time-weighted performance statistics based on our accounting system's data using the BAI iterative methodology (CFA Institute accepted). Northern Trust evaluates DWERP's performance in relation to market indices, appropriate manager peer groups and other public funds of similar size.

DWERP's primary investment objective is to prudently and expertly invest assets, in accordance with government law and industry practices, in a manner that will help ensure DWERP's ability to pay promised benefits to its members and their beneficiaries. A policy benchmark is constructed that mirrors DWERP's strategic asset allocation policy. This policy benchmark is a custom index based on current asset allocation approved by the Director of Finance. The Board establishes ranges.

Market Environment

2018 closed with a bang and investors found themselves with a lump of coal as 2018 ended. Global equity markets fell 13% in the fourth quarter and 9% for the year. Concerns were brewing amid signs of economic moderation, ongoing trade frictions, monetary policy tightening and renewed dysfunction in Washington.

Credit spread widening occurred throughout most of 2018, but it intensified in the fourth quarter of the year with both investment grade and high yield credit spreads ending at levels last seen in 2016. Normally, the credit markets are considered the "canary in the coal mine," alerting investors that stresses are building in the financial system ahead of other financial market metrics. This time around, however, it was reversed. Credit spreads took their cue from the broader deterioration in financial market sentiment despite solid fundamentals and adequate liquidity. Overall, both investment grade and high yield credit markets ended the year down slightly, a fairly constructive result given the poor equity market performance.

Global equity markets handled moderating global growth and ongoing political distractions fairly well for most of the year, but they finally cracked as investors determined that Fed policy was too aggressive. Through September, global equity markets were up more than 4%, with U.S. equity markets up double-digits offsetting negative returns

in emerging market equities. But the homestretch brought material equity market weakness. Even after the post-Christmas bounce, global markets fell by 13% in the fourth quarter. Developed markets drove the downturn (-13%) while emerging market equities held up better (-7%). Global equity markets fell by 9% in 2018 after being down as much as 13% at the bottom.

Global real estate and listed infrastructure underperformed the broader global equity markets for most of 2018 before showing their diversification properties during the year-end equity market slide. Rising interest rates into November represented a drag to these interest rate sensitive asset classes. A strong fourth quarter allowed both global real estate and listed infrastructure to perform in-line with, or even better than, global equities for the year.

DWERP Performance

For the calendar year, DWERP's total fund had a time-weighted rate of return of -3.89%. **DWERP's performance topped the median return of -4.87% of the TUCS Universe of Public Funds valued at less than \$500 million, and just missed being in the top 25th percentile.** The plan trailed its strategic policy benchmark by 10 basis points for 2018.

The policy benchmark at year end was comprised of the following indices in the percentages as follows: MSCI ACWI ex USA ND (19.53%), HFR Fund of Funds Composite (5%), BC U.S. Aggregate (22%), NCREIF-ODCE (15%), Russell 3000 (34.72%), and Russell 3000 + 2.5% (3.75%).

Over the trailing three years ending 12/31/18, DWERP earned a 6.09% annualized return. The trailing 5-year return now stands at 5.20% and is 0.34% ahead of the policy target return. The 10-year trailing return is 8.31% and beats the benchmark by 0.61%.

DWERP's Domestic equity composite lost 6.49% in 2018, underperforming the benchmark return of -5.24%. The 3-year return of 7.08% also trails the benchmark return of 8.97%. Winslow Large Cap Growth continued their outperformance into 2018 by outperforming their benchmark by the widest margin of all domestic equity managers in the plan and the only equity manager to turn in a positive return for the year.

DWERP's real estate investments had success returning 7.07% for the year. The real estate benchmark return was 7.31%.

DWERP's fixed income composite gained 0.53% for the year. This return outpaced the BB Barclays U.S. Aggregate index return of 0.01%. The 3-year return of 2.82% outpaced the benchmark return of 2.06%.

DWERP's hedge fund composite gained 0.76% for the year. This return outpaced the HFR Fund of Funds Composite rate of -4.03%.

DWERP's private equity composite was a bright spot, returning 16.06% for the year and crushing the benchmark return of -2.86%.

In summary, the portfolio underperformed the total fund benchmark in 2018 by a small margin and its performance ranks above the median of the TUCS Universe of Public Funds valued at \$500 million or less. The Equity portfolio was the biggest drag on the total plan, being the largest allocation and the largest percent loss for the year. The Real Estate portfolio bucked the trend and posted positive results for the year with all managers posting positive returns. Private Equity also performed well, but being a very small allocation, didn't move the needle much for the entire plan. Hedge Fund, and Fixed Income asset classes produced relatively flat returns for the year.

Sincerely,
Shane Crea
Senior Consultant, Vice President
The Northern

2. Outline of Investment Policies

Excerpted from the "Statement of Investment Objectives, Policy and Guidelines for the Investment of the Retirement Trust Fund of the Employees' Retirement Plan of Denver Board of Water Commissioners", approved by the Board on April 11, 2018 ("IPS.")

The purpose of the IPS is to provide the Chief Finance Officer, and other staff with a foundation from which to effectively engage and evaluate the performance of Investment Managers and to oversee the management of the Fund in a prudent manner.

The investment objective of the Fund is to preserve the actuarial soundness of the Plan by achieving a long-term return of at least the actuarial return rate and to prudently manage the inherent investment risks that are related to the achievement of this goal. The Board recognizes that the investment objective is long term in nature, and that actual year-to-year returns achieved may be above or below the actuarially assumed rate of return.

All transactions that utilize assets of the Fund will be undertaken for the sole benefit of the Fund and its beneficiaries. The assets will be invested in a manner consistent with the Plan Document and any applicable Federal, State, or Internal Revenue Service laws or regulations. The Fund's assets will be managed with that degree of care, prudence and diligence that a prudent person, acting in a like capacity and familiar with such matters, would use in a similar situation. Investment decisions with respect to individual assets should be evaluated not in isolation but in the context of the entire portfolio and as part of an overall investment strategy having risk and return objectives reasonably suited to the Fund.

The Board, in its capacity as Trustee to the Plan, is a fiduciary of the Fund. The Board may, from time to time, delegate some of its Trustee duties. All persons or entities to which duties are delegated will have a fiduciary duty to the Trust and will follow the Prudent Conduct requirements of the Plan Document.

The asset allocation strategy is designed to reflect, and be consistent with, the long-term investment objective expressed in the "Objectives" section of this Policy. To achieve this objective, various asset classes and investment manager styles are selected by the Chief Finance Officer to create a broadly diversified portfolio. Both the actuarial return assumption and the asset allocation strategy will change through time to reflect current investment objectives and market conditions. The Board has developed long-term asset allocation ranges based on several factors including: the long-term investment goals of the Plan; the Board's risk tolerance; the Plan's liquidity needs; and any legal or regulatory requirements. The allowable long-term asset allocation ranges are outlined in the appendix to the IPS. The current long-term allocation ranges are as follows:

Asset Class	Minimum	Maximum
Public Equities	40%	65%
Fixed income	10%	40%
Real Estate	10%	20%
Alternatives	5%	20%

Although there is no specific allocation to cash, the Board recognizes that it is necessary to hold a portion of the Fund as immediately available funds to pay scheduled and unscheduled benefits and administrative expenses. The appropriate level of cash reserves will depend upon anticipated liquidity needs as determined by the Chief Finance Officer on an ongoing basis.

Investment Managers are given full discretionary authority over the management of their assigned investment portfolio, subject to the Fiduciary Standard stated above and any other policies and guidelines within this Policy

and within other guidelines agreed upon by the Chief Finance Officer and the Investment Managers. Separate accounts or pooled funds may be used based upon the most favorable approach for the Fund's circumstances.

Investment Managers have the responsibility to vote proxies related to securities in portfolios they manage on behalf of the Fund in the best interests of the Plan and its beneficiaries. The Chief Finance Officer shall be responsible for voting of the proxies with respect to the pooled funds for the exclusive benefit of the Plan, Active Investment Managers are expected to outperform their respective passive index designated by the Chief Finance Officer, with the assistance of the Investment Consultant, and rank above median within a peer universe of active Investment Managers over a reasonable period of time. Passive products are expected to produce returns that have minimal tracking error to their target index returns.

The Board has delegated implementation of this Policy to the full-time staff member occupying the position of the Chief Finance Officer. Details concerning the Board's delegation may be found in the 2013 Denver Water Delegation Resolution Regarding the Retirement Program ("Resolution") approved on May 8, 2013. The Chief Finance Officer may assign members of his/her Treasury staff to perform the day to day actions necessary to implement his/her decisions/actions, while retaining his/her fiduciary status. The Chief Finance Officer is directed to review this Policy, including the asset allocation ranges, at a minimum, annually with the Investment Consultant for continued appropriateness, and to recommend changes to the Board when appropriate.

As a supplement to the IPS, the Operating Procedure document created and maintained by the Treasury section since October 2009, is intended to provide the operating instructions to the investment professionals at Denver Water responsible for oversight and day-to-day management of the Fund. The Procedure defines the risk and returns objectives of the Fund, expands on the underlying principles of the Board in the management of the Fund, describes the approved categories of investments and asset mix guidelines, provides guidance for the prudent and effective management of the Fund including constraints, and establishes the process for hiring and monitoring investment managers.

3. Schedule of Investment Managers

Manager	Strategy/Product	Vehicle	Date funded
Domestic Equity Managers			
Winslow Capital Management, LLC	Winslow Large Cap Growth Portfolio	Separately managed account	Since 08/2011
Fidelity Institutional Asset Management	Small/Mid Cap Core Pool	Commingled fund	Since 07/2011
Alliance Bernstein	AB Discovery Value Fund CL Z	Commingled fund	Since 06/2018
Northern Trust Investments, N.A.	NTGI-QM Collective Daily S&P 500 Equity Index Fund	Commingled fund	Since 07/2006
International Equity Managers			
Dimensional Fund Advisors LP	World ex U.S. Value Portfolio (DFWVX)	Institutional mutual fund	Since 02/2008
Harding Loevner Funds, Inc.	International Equity Portfolio (HLMIX)	Institutional mutual fund	Since 08/2011
Fixed Income Managers			
Babson Capital Management LLC	Babson Capital Floating Rate Income Fund	Commingled fund	Since 08/2013
BlackRock Institutional Trust Company, N.A.	The US Debt Index Non-Lendable Fund	Commingled fund	Since 05/2016
Private Equity			
Aberdeen Asset Management Inc.	Aberdeen VI, LP - Buyout Fund	Commingled fund	Since 08/2015
Horsley Bridge Partners	Horsley Bridge XI Venture Fund	Commingled fund	Since 07/2015
Real Estate Managers			
Principal Global Investors, LLC	U.S. Property Separate Account	Commingled fund	Since 03/2016
RREEF America REIT II	RREEF America	Commingled fund	Since 08/2014
Harbert Management Corporation	Harbert United States Real Estate Fund V, LP	Commingled fund	Since 07/2014
UBS Realty Investors, LLC	Trumbull Property Fund	Commingled fund	Since 05/1998
Hedge Fund-of-Funds			
BlackRock Alternative Advisors	BlackRock Appreciation IV	Commingled fund	Since 03/2012
Cash and Equivalent			
Northern Trust Investments, N.A.	The Northern Trust Collective Government STIF	Commingled fund	Since 1988
Managers terminated during 2018			
Advisory Research, Inc.	Master Limited Partnership	Separately managed account	Terminated 11/2017
Vanguard Group	Vanguard Dividend Growth Fund (VDIGX)	Mutual Fund	Terminated 05/2018

Fees paid to investment managers are included in the Investment Section on page 94.

4. Schedule of Investment Results

The investment returns for the Employees' Retirement Plan are calculated by the Plan's custodian, The Northern Trust Company. Northern Trust calculates time-weighted performance statistics based on the company's accounting system's data using the BAI iterative methodology (CFA Institute accepted). Northern Trust evaluates the Plan's performance in relation to market indices, appropriate manager peer groups and other public funds of similar size. Returns are reported gross of fees, except for institutional mutual funds.

Source: Northern Trust; data as of 12/31/2018

¹ While the IPS does not quantify an allocation to cash, the Operating Procedure for the DB Plan sets the current target level for cash and cash equivalents at the amount equal to two months of pension payments, or approximately \$3 million.

² The total market value of the assets in the DB Plan reported by Northern Trust is higher than the net position restricted for pension reported in the Statement of Fiduciary Net Position due to certain accrued administrative and investment expenses not reported by the custodian until paid.

³ Long Term Asset Allocation ranges are approved by the Board and outlined in the IPS.

⁴ The Board charged the Chief Finance Officer with developing and implementing a current asset allocation and rebalancing strategy which is designed to reflect and be consistent with the long-term investment objective and the long-term asset allocation ranges outlined in the IPS. These target allocation weights are contained in the Operating Procedure. At December 31, 2018, all asset classes were within their stipulated operational ranges.

¹ Cash in this schedule differs from the amount reported in the financial statement due to classification differences. The amount of cash and money market mutual funds held within an individual investment portfolio (e.g. equity, fixed income) is reported in the portfolio classification in this schedule, but reported as Cash in the financial statements.

² The total market value of the assets in the DB Plan reported by Northern Trust is higher than the net asset value reported in the Statement of Plan Net Assets due to certain accrued administrative and investment expenses not reported by the custodian until paid.

Percentages may not add to 100% due to rounding.

¹ The table lists all transactions and commissions recorded by Northern Trust. It does not include commissions paid by mutual funds and commingled funds or spread on any fixed income transactions. Transactions for which a broker was not specified (including sales and purchases of shares of mutual funds and commingled funds) are grouped under "Unassigned Broker".

The Trustees of the Employees' Retirement Plan have determined that because neither they nor staff are involved in the day-to-day investment of the Fund assets, neither they nor staff are in a position to determine with which brokers an investment manager can obtain the best execution of a transaction. For that reason, the Trustees do not direct commissions to any firm.

B. Denver Water 401(k) Supplemental Retirement Savings Plan/ Denver Water 457 Deferred Compensation Plan

1. Report on Investment Activity

This section was prepared by the Denver Water staff

On December 31, 2018, the market value of assets in the 401(k) Plan totaled \$100.5 million, a -4.9% decrease in the Plan asset value compared to December 31, 2017. At year-end 2018, the Plan had 1,190 participants including 895 active participants¹. Total employee contributions to the 401(k) Plan amounted to \$4.4 million in 2018, or an average of \$4,916 per year per active participant, while Denver Water's matching contributions totaled \$2.1 million (an average of \$2,346 per year per active participant)². Slightly over 90% of the eligible Denver Water employees participated in the 401(k) Plan at year-end, compared to a 91% participation rate in 2017.³

In 2018, employee contributions to the 401(k) Plan amounted to \$4.4 million, while Denver Water's matching contributions totaled \$2.1 million.

On December 31, 2018, the market value of assets in the 457 Plan totaled \$32.6 million, a -3.9% decrease in the Plan asset value compared to December 31, 2017. The Plan had 658 participants, including 462 active¹. During 2018, participant contributions totaled \$2.1 million (or an average of \$5,455 per year per active participant).² Over 39% of the eligible Denver Water employees participated in the 457 Plan at year-end, compared to a 39% participation rate in 2017.

In 2015, both plans were amended to allow participants to borrow money from the Plans. In 2018, loans from the 401(k) Plan totaled \$1,953,639 and 457 Plan amounted to \$213,233.

As noted in the policy statements for both the 401(k) and 457 Plans, the primary objective of the Board is to offer investment options having diverse risk and return expectations so that each participant may construct a portfolio that can be expected to meet his or her individual needs. Investment managers are selected by the Chief Finance Officer, with the assistance of the Retirement Program Committee and the investment consultant for the DC Plans, Ellwood Associates. As of December 31, 2017, participants in either plan had access to twenty-eight (28) investment options representing all major asset classes (of which twelve were Target Retirement Funds focused on various retirement dates). The schedule of investment options available in the DC Plans can be found on page 100. The investment of both

The investment of all contributions in the DC Plans is directed by each participant. Returns vary by participant based upon the timing of contributions and the funds

¹ Total participants are defined as those participants who had cash value at the end of the reporting period. Active participants are defined as those participants who were actively employed and had a balance at the end of the reporting period.

² In 2016, an eligible employee was able to make a tax-deferred contribution of up to \$17,500 to each Defined Contribution Plan in which he or she was a participant. Participants age 50 or older could contribute an additional \$5,500 to each plan as catch-up contributions. For more information on limitation on effective deferrals see "401(k) Resource Guide - Plan Participants - Limitation on Elective Deferrals", "IRS Announces Pension Plan Limitations for 2013" IR-2012-77, Oct. 18, 2012, available on www.irs.gov.

³ For more statistical information about Retirement Program, see the Statistical Section of this Report.

employee contributions and the employer-matching contributions is directed by the participants. Page 101 contains investment return information on each fund available to participants. Returns vary by participant based upon the timing of contributions and the funds selected by the participant. Most funds in the lineup had rates of return above the median for their peer group over 1, 3, and 5-year periods.

Empower Retirement (formerly Great-West Retirement Services) ("Empower") is the custodian/trustee and the administrator for the Denver Water 401(k) and 457 Plans. Effective in January 2016, the total fee for recordkeeping and communication services was reduced from 0.09% to 0.075% annually. The fee is being calculated and withdrawn from all participant accounts on a monthly basis. Revenue sharing is credited to participants with account balances in a revenue-paying fund which generated the revenue, based on the average daily balance of the participant's investment in such fund(s) for the prior month.

Expense ratios for all funds in the lineup, as well as the revenue sharing amounts received by the Plan administrator, are disclosed to participants in the enrollment package and through the HR page on Inflow. They are disclosed to the general public in the audited financial statements. Current expense ratios wrap fees and revenue sharing levels are presented in more detail on page 105.

2. Outline of Investment Policies

Denver Water 401(k) Supplemental Retirement Savings Plan

Excerpted from the "Investment Policy Statement for Denver Water Supplemental Retirement Savings Plan (401(k) Plan) ["401(k) IPS"], approved by the Board on March 12, 2014

The purpose of the 401(k) Plan is to enable each Plan participant to accumulate financial assets for retirement. The Board acknowledges that participants may have diverse current and projected needs and objectives. For that reason, the primary objective of the Board is to offer investment options having diverse risk and return expectations so that each participant may construct a portfolio that can be expected to meet his or her individual needs. Within this overall objective, the Board identified the following additional objectives:

- To undertake all transactions solely in the interest of the participants;
- To maintain flexibility in meeting the future needs of participants;
- To enable participants to exercise investment control;
- To allow participants to maximize return within reasonable and prudent levels of risk by selecting from the investment options offered;
- To monitor administration costs to ensure they remain reasonable;
- To arrange for investment education to be available to Participants.

The Board is a fiduciary of the 401(k) Plan. As such, the Board is authorized to delegate certain responsibilities to professional experts in various fields. As a sponsor of the 401(k) Plan, the Board is responsible for establishing investment policy objectives and guidelines. By resolution dated September 14, 2005 and updated on November 14, 2018, the Board has delegated certain duties related to implementation of the 401(k) IPS to the Chief Finance Officer and the Chief Human Resources Officer. Among the responsibilities delegated to the Chief Finance Officer is the responsibility and authority to determine which investment options will be chosen, and to monitor the continued acceptability of the investment options. It is the policy of the Board to engage experts to assist with these duties.

In the 401(k) IPS, the Board directs the Chief Finance Officer, with the assistance of the Investment Consultant to review long-term performance characteristics of various asset classes and to select broad asset classes for inclusion in the 401(k) Plan which have a long-term return history that is reasonably useful with respect to evaluating its probable future return, its standard deviation, and its correlation with the other selected asset classes. With a focus on balancing the risk and rewards of market behavior, it is the policy of the Board that the investment options made available to participants in the 401(k) Plan be chosen from no fewer than the following asset classes: Domestic Equities, International Equities, Domestic Fixed Income, and Fixed Interest or Stable Value Products. Within each of the broad asset classes, the 401(k) IPS requires that included investment options be diversified with respect to market capitalization, fixed income maturities, and investment style. Investment options that combine various asset classes are also included.

Over a complete market cycle, each investment option's overall annualized total return should perform above the median of portfolios in their Peer Universe. The Chief Finance Officer shall continually monitor and review investment options against this expectation. The Chief Finance Officer has authority to take corrective action by replacing an option if deemed appropriate at any time, on a case-by-case basis.

When evaluating quarterly performance of each investment option, the Chief Finance Officer is directed to focus on:

- Consistency with expected style mandate;
- Material changes in the manager's organization, investment philosophy, and/or personnel;
- Comparisons of the investment option's results to its benchmark;
- The risk associated with each investment option;

- The investment option's performance relative to its Peer Universe.

The Chief Finance Officer is directed to review the 401(k) IPS annually, to consult as necessary with expert advisors, and to suggest updates to the CEO/Manager and the Board as necessary.

Denver Water 457 Deferred Compensation Plan

Excerpted from the "Investment Policy Statement for the Denver Water 457 Deferred Compensation Plan (the "457 Plan, ["457 IPS"])", approved by the Board on November 14, 2018

The Board's involvement in the Denver Water 457 Plan is solely to offer employees an opportunity to make voluntary payroll deferrals to the extent permitted by Internal Revenue Code section 457. The Board's objective is to offer employees reasonable choice in the 457 Plan funding products, and to control the administrative burdens and costs of the 457 Plan to Denver Water and its employees.

For these reasons, it is the policy of the Board that:

- The investment options offered in the 457 Plan will be the same as those offered in the 401(k) Plan;
- The same Record keeper will be used for the 457 Plan as for the 401(k) Plan and recordkeeping information;
- Participants will receive a consolidated participant statement for the two Plans, so that participants can see the effect of their investment allocation decisions more comprehensively.
- In order to maintain the 457 Plan as an eligible deferred compensation plan under section 457 of the Internal Revenue Code, assets of the 457 Plan will be held by an independent custodian and the Board will take such other actions as are necessary to maintain the tax deferred status of the 457 Plan;
- In all investment-related matters not specifically addressed in the 457 IPS, the investment policy for the 401(k) Plan shall be followed.

4. Schedule of Investment Results

The investment returns for the Denver Water 401(k) Supplemental Retirement Savings Plan/ Denver Water 457 Deferred Compensation Plan are provided by the Plans' Investment Consultant, Ellwood. Ellwood derives the information about returns from Morningstar Principia. Total return is calculated by taking the change in a fund's Net Asset Value (NAV), assuming the reinvestment of all income and capital gains distributions during the period, and then dividing by the initial NAV. Total returns account for management, administrative, and 12b-1 fees and other costs automatically deducted from fund assets. Ellwood evaluates the Plans' performance in relation to market indices and appropriate manager peer groups. Returns are reported net of fees.

¹ The dollar amount of fees paid by the Plans for investment management and administrative services on the funds is not separately disclosed. Revenue sharing arrangements with Empower are discussed in more detail in the Report on Investment Activity for the DC Plans (page 97).

² Expense ratios provided by Ellwood Consulting

³ Effective in January 2016, the total fee for recordkeeping and communication services was reduced from 0.09% to 0.075% annually. The fee is being calculated and withdrawn from all participant accounts on a monthly basis and any revenue sharing is credited to participants with account balances in a revenue-paying fund which generated the revenue, based on the average daily balance of the participant's investment in such fund(s) for the prior month.

IV. ACTUARIAL SECTION (UNDAUDITED)

A. Actuary's Certification Letter

This section is excerpted from the January 1, 2018 Actuarial Valuation Report prepared by Gabriel Roeder Smith & Company and pertains only to the DB Plan

Re: Actuarial Valuation of the Employees' Retirement Plan of the Denver Board of Water Commissioners as of January 1, 2018

Dear Usha:

We are pleased to present the Report on the actuarial valuation of the Employees' Retirement Plan of the Denver Board of Water Commissioners ("Plan") as of January 1, 2018.

This Report presents the results of the January 1, 2018 actuarial valuation of the Plan. The Report describes the current actuarial condition of the Plan, determines required annual employer contribution rates, and analyzes changes in these required rates. In addition, the Report provides various summaries of the data. This report should not be relied on for any purpose other than the purpose described in the primary communication. Accounting information for purposes of complying with Governmental Accounting Standards Board (GASB) Statements Nos. 67 and 68 is provided in a separate report.

We certify that the information included herein and contained in the January 1, 2018 Actuarial Valuation Report is accurate and fairly presents the actuarial position of the Plan as of the valuation date.

Financing Objectives

The Actuarially Determined Contribution is determined by taking the sum of the normal cost, a component to amortize the unfunded liability and a component to cover administrative expenses. The Board's current funding policy is to contribute an amount each year based on the most recently calculated Actuarially Determined Contribution.

The amortization component is determined using 15-year closed level-dollar amortizations of layered amortization bases. The first base was established using the unfunded liability as of January 1, 2014. Subsequent bases were established at each valuation date by taking the unfunded liability at that time, less the total outstanding balances of the previous amortization balances.

The total actuarially determined contribution has decreased from 23.444% of pay to 23.312% of pay. During 2018, members hired on or after January 1, 2018 will contribute 3% of pay. Members hired prior to that date will contribute 1% of pay in 2018, 2% of pay in 2019, and 3% of pay in 2020. The expected 2018 blended member rate is 1.046%, resulting in a 22.266% of pay net employer contribution.

Ms. Usha Sharma
April 30, 2018
Page 2

Assuming all actuarial assumptions are met, this method of payment of the unfunded liability will result in full funding in 15 years for each layer. Actual results can and almost certainly will differ, as actual experience deviates from the assumptions. A schedule of each year's initial base and remaining outstanding balance is illustrated in Exhibit B.5.

Progress Toward Realization of Financing Objectives

The unfunded actuarial accrued liability and the funded ratio (ratio of the actuarial value of assets to the actuarial accrued liability) illustrate the progress toward the realization of certain financing objectives.

Based on the actuarial valuation as of January 1, 2018, the Plan has an unfunded liability of \$81.5 million and a funded ratio of 80.8%.

The increase in the funded ratio on an actuarial value of assets basis, from 79.9% to 80.8%, is primarily due to investment gains and the recognition of deferred asset gains and losses. The funded ratio on a market value of assets basis increased from 78.3% to 84.9% primarily due to investment gains greater than expected. A funded ratio less than 100% indicates an actuarially determined contribution that will require a normal cost and an amortization payment. If the contributions equal the ADC, and if all assumptions are met, the funded ratio should improve over time.

Benefit Provisions

All of the benefit provisions reflected in this valuation are those which were in effect on January 1, 2018. Beginning January 1, 2018, current members are required to contribute 1% of bi-weekly compensation to the Plan. The required contribution will increase to 2% in the 2019 Plan Year and 3% in the 2020 Plan Year and thereafter. Members hired on or after January 1, 2018 will contribute 3% of pay. The benefit provisions are summarized in Section D of this Report.

Assumptions and Methods

The assumptions were adopted by the Denver Board of Water Commissioners primarily upon the prior actuary's analysis and recommendations from the 2015 Experience Study. A new discount rate and mortality tables were adopted by the Board effective January 1, 2017. There were no changes in actuarial assumptions and methods since the prior report. These assumptions and methods are detailed in Section F of this Report. The Board has sole authority to determine the actuarial assumptions used for the Plan. In our opinion, the actuarial assumptions used are reasonable.

B. Summary of Actuarial Methods and Assumptions

The actuarial assumptions used in the valuation are intended to estimate future experience affecting projected benefit flow and investment earnings. Any variations in future experience from that expected from these assumptions will result in corresponding changes in the estimated costs of the plan's benefits.

The tables in this section give rates of decrement, referred to in actuarial notation by the general symbol "q'." The underlying theory is described more fully in Jordan, Life Contingencies, Society of Actuaries (Second Edition, 1967), page 277. Any age referred to in a table is always the age of the person at his or her nearest birthday.

Actuarial Cost Method

The actuarial cost method we use to calculate the funding requirements of the Plan is called the entry age normal actuarial cost method.

Under this cost method, the actuarial present value of the projected benefits of each individual included in the valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit age. The portion of this actuarial present value allocated to a valuation year is called the Normal Cost. The portion of the actuarial present value not provided for at the valuation date by future Normal Costs is called the actuarial accrued liability.

Actuarial Value of Assets

The actuarial value of assets is determined by calculating the expected return on the prior year's market value of assets, adjusted for cash flows of contributions and benefit payments for the year, and assuming a 7.00% interest return. The difference between this expected value and the actual return for the plan year is recognized over 3 years. The actuarial value of assets is then the actual market value minus the gains and losses for prior years that are still deferred. The resulting value is limited to between 80% and 120% of the market value of assets.

Annual Required Contribution (Adopted January 1, 2014)

The Actuarially Determined Contribution (ADC) is calculated in accordance with the Funding Policy adopted by the Board. The unfunded actuarial accrued liability (UAAL) is amortized as a level dollar amount over a 15-year period using a layered approach beginning January 1, 2014. The UAAL as of January 1, 2014 will be amortized over a 15-year closed period. Future fluctuations in the UAAL due to plan experience different than assumed or changes in actuarial assumptions, methods or plan provisions will be amortized over a 15-year period beginning with the first valuation date following such change. In the event of a surplus (Actuarial Value of Assets greater than the Actuarial Accrued Liability), all prior amortization bases will be eliminated and the surplus will be amortized over a 30-year open period as a level-dollar amount.

Cost-of-Living Adjustment

For members hired prior to January 1, 2018, the monthly amount of any Pension provided by the Plan may be increased annually of the first day of each January by the change in the U.S. Consumer Price Index (CPI-W) as reported the preceding November. Annual increases may not exceed 5% for members whose severance date occurs prior to September 1, 1995 and 4.4% for members whose severance date occurs after August 31, 1995. Effective January 1, 2017, if the change in the U.S. Consumer Price Index is negative, then it shall be treated as zero. The Cost-of-Living Adjustment granted in 2017 was 2.32%. There are no Cost-of-Living Adjustments for members hired on or after January 1, 2018.

Actuarial Assumptions

Investment return: 7.00% per annum, compounded annually, composed of an assumed 2.75% inflation rate and a 4.25% real rate of return. This rate represents the assumed return, net of all investment expenses.

Salary increase rate: Inflation rate of 2.75%, plus productivity component of 0.50%, plus merit component as shown

Sample Attained Age	Percentage Increase in Salary			
	Merit	Productivity	Inflation	Total
22	3.0%	0.5%	2.75%	6.25%
27	3.0	0.5	2.75	6.25
32	2.5	0.5	2.75	5.75
37	2.0	0.5	2.75	5.25
42	1.0	0.5	2.75	4.25
47	0.5	0.5	2.75	3.75
52	0.1	0.5	2.75	3.35

Expenses: Administrative expenses are assumed to be \$120,000 per year.

Demographic assumptions

Mortality rates (pre- and post-retirement) – Combined RP-2014 Healthy Mortality Tables projected with scale MP to 2016.

Mortality rates (post-disablement) – Combined RP-2014 Disabled Annuitant Mortality Tables, projected with scale MP-2016.

Sample rates are shown below:

Sample Attained Age	Probability of Death Pre-Retirement		Sample Attained Age	Probability of Death Post-Retirement		Sample Attained Age	Probability of Death Post-Disability	
	Men	Women		Men	Women		Men	Women
20	0.03%	0.01%	20	0.03%	0.02%	20	0.03%	0.02%

90	11.58	8.97	90	11.45	9.30	90	14.57	11.52

Disability rates

Graduated rates are used. Sample rates shown below:

Sample Attained Ages	Probability of Disability
25	0.027%
30	0.064
35	0.109
40	0.164
45	0.255
50	0.437
55	0.792
60	1.256

Termination rates (for causes other than death, disability or retirement)

Termination rates are based on service. Termination rates are not applied after a member becomes eligible for a retirement benefit. Rates at selected ages are shown:

Years of Service	Probability of Termination
1	9.00%
2	9.00
3	9.00
4	9.00
5	5.00
6	5.00
7-10	3.00
11-15	2.00
16-29	1.00
30+	0.00

Retirement Rates

Attained Age	Before Eligible for Special Early Retirement	After Eligible for Special Early Retirement
50	0.0%	3.0%
51	0.0	3.0
52	0.0	3.0
53	0.0	3.0
54	0.0	9.0

61	5.0	20.0

62	5.0	20.0
63	0.0	30.0
64	0.0	30.0
65	0.0	30.0
66-69	0.0	30.0
70 & Over	0.0	100.0

Other Assumptions

Percent married: 75% of employees are assumed to be married.

Age difference: Male members are assumed to be three years older than their spouses, and female members are assumed to be three years younger than their spouses.

Cost of living adjustment: 2.75% per annum.

Deferred vested members and their surviving spouses are assumed to retire at first eligibility for unreduced benefits (age 65, unless eligible for Special Early Retirement, in which case, age 55).

Valuation payroll is based on census data provided (annualized for new hires) and then increasing for one-half year salary increase.

Pay increase timing: Middle of year.

Decrement timing: Decrements of all types are assumed to occur mid-year.

Eligibility testing: Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.

Decrement relativity: Decrement rates are used directly, without adjustment for multiple decrement table effects.

Age at Termination/Retirement	% Electing Lump Sum	% Electing Straight Life Annuity
<45	10%	90%
45-55 Not Retirement Eligible	20%	80%
50+ Retirement Eligible	25%	75%

C. Changes in Actuarial Methods and Assumptions since Prior Year

There were no changes in actuarial methods and assumptions since the prior report.

D. Schedule of Active Member Valuation Date

Valuation Date	Number of Active Members	Annual Payroll	Annual Average Pay	% Increase in Average Pay	Number of Deferred Vested

I. Summary of Plan Provisions

Plan Year

The Plan Year is the 12-month period beginning January 1 and ending December 31.

Accrued Benefit

The Accrued Benefit for each member is the member's Normal Retirement Benefit calculated using Average Final Compensation and Credited Service as of the calculation date.

Average Final Compensation

A member's Average Monthly Salary, as of a given date, is the average of the highest 36 consecutive completed calendar months of compensation during the last 120 months of employment for members hired prior to January 1, 2018 and the average of the highest 60 consecutive completed calendar months of compensation during the last 120 months of employment for members hired or rehired on or after January 1, 2018.

Compensation

Salary is the total compensation paid to a member for services rendered to the Employer, prior to any pre-tax contributions to any qualified cash or deferred compensation arrangement, eligible deferred compensation plan or under a cafeteria plan.

Credited Service

A member shall be credited with one year of Credited Service for each Plan Year in which the member is credited with 1,000 or more Hours of Service. Members hired or rehired on or after January 1, 2018 credited with less than 1,000 Hours of Service in a Plan Year shall receive partial Credited Service based on the number of Hours of

Service for which Member Contributions were made, credited in such Plan Year, divided by 2080 rounded to the nearest 1/100th of 1%.

Employees/Membership

Employees hired prior to January 1, 2018 shall become a Member retroactive to the employee's date of employment upon the completion of the Required Introductory Period (typically six months). Employees hired or rehired on or after January 1, 2018 shall become a Member on the date of such Employee's employment or reemployment.

Employee Contributions

A member hired prior to January 1, 2018 is required to contribute 1% of bi-weekly Compensation commencing with the first pay date on which the Merit Increase paid in the 2018 Plan Year is processed and ending with the pay date prior to the first pay date on which the Merit Increase paid in the 2019 Plan Year is processed. The required contribution will increase to 2% in the 2019 Plan Year and 3% in the 2020 Plan Year and each pay date thereafter. Member contributions made on or after January 1, 2018, receive interest at a rate of 2.5% per year. Any member contributions currently in the Plan are credited with interest at a rate of 5.0% per year.

Normal Retirement Date

A member's Normal Retirement Age is the later of age 65 or the date the member completes five years of Credited Service. Normal Retirement Date is the day immediately following the attainment of Normal Retirement Age.

Normal Retirement Benefits

For members hired prior to January 1, 2018, the monthly normal retirement pension payable upon retirement on a member's Normal Retirement Date is the sum of 1.5% of Average Final Compensation and 0.45% of Average Final Compensation in excess of Covered Compensation, times Credited Services. For members hired or rehired on or after January 1, 2018, the monthly normal retirement pension payable upon retirement on a member's Normal Retirement Date is 1.75% of Average Final Compensation times Credited Service.

Regular Early Retirement

Eligibility:

Age 55 for members hired prior to January 1, 2018, or age 60 for members hired or rehired on or after January 1, 2018, an in either case vested in the Accrued Benefit (5 years of credited service for severance dates on or after April 18, 1995.)

Amount:

A member's Regular Early Retirement Benefit is a monthly pension benefit equal to his Accrued Benefit determined as of his Early Retirement Date, reduced by 1/3rd of 1% for each month payments commence prior to the member's Normal Retirement Date.

Special Early Retirement – Rule of 75 and 85

Eligibility:

For members hired prior to January 1, 2018, age 50 and age plus service equals 75 or more. For members hired or rehired on or after January 1, 2018, age 60 and age plus service equals 85 or more.

Amount:

A member's Special Early Retirement Benefit is a monthly pension benefit equal to his Accrued Benefit determined as of his Special Early Retirement Date, unreduced for earlier commencement. Benefits are payable at the later of age 55 for members hired prior to January 1, 2018, age 60 for members hired or rehired on or after January 1, 2018, and age at retirement.

Deferred Vested Retirement

Eligibility:

5 or more years of Credited Service.

Amount:

A member's Deferred Vested Retirement shall be equal to the member's Accrued Benefit, payable at the member's Normal Retirement Date. Members hired prior to January 1, 2018 may retire with an Early Retirement Benefit upon attainment of age 55 with applicable reductions. Members hired or rehired on or after January 1, 2018 may retire with an Early Retirement Benefit upon attainment of age 60 with applicable reductions.

Disability Retirement

Eligibility:

Termination due to Disability.

Amount:

A member's Disability Retirement shall be equal to the member's Normal Retirement Benefit based on Average Final Compensation and Covered Compensation at time of Disability and Credited Service member would have accrued had he continued employment through his Normal Retirement Date (or date of discontinuance of disability benefits, if earlier).

Normal Benefit Form

Life Annuity

Optional Benefit Forms

Optional Benefit Forms are available and equal to the Actuarial Equivalent of the Normal Benefit Form and may be in an amount more than or less than that provided by the Normal Benefit Form depending on the option selected. Such distribution may be as a Joint & 50%, 75%, or 100% Survivor Annuity, with or without a Pop-up Feature, Level Income Option, or a Lump Sum.

Benefit reductions for Joint and Survivor Annuities are specified in the Plan Document. Lump Sum and Level Income benefits are calculated using an actuarial equivalence conversion.

Pre-Retirement Death Benefit

If a member dies prior to commencing benefits, the member's spouse will receive a monthly benefit payable as a Life Annuity in an amount equal to 50% of the member's Accrued Benefit.

Lump Sum Death Benefit

Upon the death of a Retired member receiving a monthly pension, \$5,000 shall be paid in a single sum to the member's designated beneficiary.

Cost of Living Adjustment

For members hired prior to January 1, 2018, the monthly amount of any Pension provided by the Plan will be increased annually on the first day of each January by the change in the U.S. Consumer Price Index (CPI-W) as reported the preceding November. Annual increases may not exceed 5% for members whose severance date occurs prior to September 1, 1995 and 4.4% for members whose severance date occurs after August 31, 1995. Effective January 1, 2017, if the change in the U.S. Consumer Price Index is negative, then it shall be treated as zero. The Cost-of-Living Adjustment granted in 2017 was 2.32%. There are no Cost-of-Living Adjustments for members hired on or after January 1, 2018.

J. Changes in Plan Provisions

None.

M. Notes to Trend Data

N. Summary of Actuarial Assumptions, Methods and Additional Information

Valuation Date	January 1, 2018
Actuarial Cost Method	Entry Age Normal
Amortization Method	15 years (layered), as a level dollar amount (beginning January 1, 2014)
Remaining amortization period	15 years (as of January 1, 2014)
Asset valuation method	3-year smoothing of market value gains or losses
Actuarial assumptions:	
Investment rate of return*	7.00% per annum, compounded annually, composed of an assumed 2.75% inflation rate and a 4.25% real rate of return. This rate represents the assumed return, net of all investment expenses.
Projected salary increases	Age-based rates from 6.25% to 3.35%
*Includes inflation at	2.75% and 0.5% productivity

V. STATISTICAL SECTION (UNAUDITED)

This section provides detailed information about the Retirement Plans of the Denver Board of Water Commissioners as a context for understanding the Program's overall financial condition. "Schedules of Additions by Source", "Schedules of Deductions by Type", "Schedules of Benefit and Refund Deductions from Net Assets by Type" and "Schedules of Changes in Net Assets" provide detailed information about the trends of key sources of additions and deductions to assets of Denver Water Retirement Plans, as well as their overall growth. "Schedule of Retired Members by Type of Benefit" contains information regarding the number and type of benefit recipients, and benefit amount for those who retired in 2018. "Schedule of Average Benefit Payment Amounts for Retirees" contains information on the average monthly benefit, average final monthly salary, and number of retired members of the Employees' Retirement Plan of Denver Water (DB Plan) over the last 10 years. Finally, the section entitled "Other Information" contains various tables showing member data for the Plans for the years 2009-2018. All non-accounting data was derived from Denver Water's internal sources and vendor reports and has been updated as of the end of 2018, as available.

A. Employees' Retirement Plan

1. Schedule of Additions by Source, 2009 – 2018

Fiscal Year Ending	Member Contributions ²	Employer Contributions ¹		Net Investment and Other Income ⁴	Total
		Dollars	Percentage of Annual Covered Payroll ³

Source: Financial Statements for the Employees' Retirement Plan

¹ Employer cash contributions are made at actuarially determined amounts sufficient to accumulate the necessary assets to pay benefits when due. Contribution amounts are rounded to the nearest \$100 dollars and do not include interest earned for early payment of contribution.

² Effective September 1, 1995, members had the ability to make a voluntary after-tax contributions to the Plan to purchase an additional monthly benefit (pension purchase feature). The additional benefit was in the form of a monthly annuity with no cost-of-living adjustment. No contributions were made under this provision in 1999-2008. The pension purchase feature was eliminated effective July 1, 2009.

³ Percentage is calculated based on contribution payment made on December 31 of each year. Actual percentage may be lower due to earlier payment of contribution.

⁴ Investment and miscellaneous income (including realized and unrealized gains/losses) net of investment expense.

2. Schedule of Deductions by Type, 2009-2018

Fiscal Year Ending	Deductions by Type			Total
	Benefit Payments	Administrative Expenses	Refunds ¹	
2009	12,640,900	52,400	88,400	12,781,700

Source: Financial Statements for the Employees' Retirement Plan

¹Effective January 1, 1992, the Board determined that all employee contributions to the Denver Water Employees' Retirement Plan would be refunded, with interest at 5%, upon termination or retirement. An amount of \$2,480,000 was paid in 1992 to refund amounts contributed by employees who had retired prior to December 1992 or were terminated during 1992. Amounts listed subsequent to 1992 were paid to employees who were terminated or retired in the year listed. Employees stopped making mandatory contributions after September 1981. As of December 31, 2018, and 2017, total remaining employee contributions including accrued interest were \$42,500 and \$43,600 respectively.

3. Schedule of Benefit Deductions from Net Assets by Type 2009-2018

Fiscal Year Ending	Annual Pension Benefits	Lump Sum Payments	Death Benefits	Total Benefits	Refunds

¹Total participants are defined as those participants who had cash value at the end of the reporting period. Active participants are defined as those participants who were actively employed and had a balance at the end of the year. Inactive participants include plan participants who are no longer employed but have a balance.
