RE: Denver Water's Proposed Enlargement to Gross Reservoir, FERC Project No. 2035

Dear Agency or Interested Stakeholder,

On May 1, 2008 Denver Water sent a letter outlining the U.S. Army Corps of Engineers and the Federal Energy Regulatory Commission (FERC) processes for obtaining the necessary permission to enlarge Gross Reservoir. Public meetings were held on July 29 and 30, 2008 on the Initial Consultation Document and the comment period ended on September 29, 2008.

The U.S. Forest Service and U.S. Fish and Wildlife Service both requested additional information and an extension on the comment period. Therefore, additional information has been provided to all agencies and stakeholders and the comment period has been extended for another 60 days.

The additional information has been posted on the Denver Water website at www.denverwater.org in a pdf format. To find the information, look under "PUBLIC NOTICES" and click on "Gross Reservoir FERC Amendment". The new information is entitled "Hydrology".

Comments should be received by January 7, 2009. If you have any questions or have problems downloading the files, please do not hesitate to contact me.

Sincerely,

Travis Bray
Project Manager
