Opening Remarks, Public Comments, Agenda and Minutes

March Minutes and April Agenda were approved.

Denver Water Update

Provided in written format to all members.

Snowpack Update

Nathan Elder of Denver Water's Planning Division gave an overview of the snowpack and runoff outlook for 2017. See presentation attached.

Watershed Health Overview

Christina Burri, Denver Water Watershed Scientist, gave an overview of Denver Water's watershed protection programs. See presentation attached.

CAC Business

Heather Bergman, Peak Facilitation, presented a proposal for customer focus groups to be led by the CAC. The CAC confirmed their desire to use a "world café" format of different activities to collect information on water efficiency suggested by Jeff Tejral and associated with the new Water Efficiency Plan and some long term planning ideas being considered by Planning.

Heather and Sam will work with Katie and Heather to develop a series of 3 focus groups to be held at the regular CAC meeting time in May, June and July (5-7pm). They will be held in 3 different neighborhoods around the Denver Water service area. 4-5 CAC members will sign up to help run the groups each time (sign up list to be distributed by Heather and Sam) and the rest of the members will attend, observe and participate.
