

Dear Customer,

Thank you for your patience during the water main replacement project on _____ Street from _____ to _____ Street that has been taking place in your neighborhood. This project will help reduce the potential for future water main breaks, and ensure you receive a continuous supply of high quality water.

If we replaced a lead service line on your property, please remember to follow the flushing and maintenance guidelines we provided to you. If you have misplaced these guidelines you can find them here: www.denverwater.org/lead.

Denver Water's paving contractor will return within the next 3-4 weeks to permanently install a final asphalt patch. Denver Water landscape staff will return when planting conditions are most suitable to restore landscape at the site.

If you have any additional questions, please feel free to call Denver Water Customer Care at 303-893-2444, Monday - Friday, 7:30 a.m. - 5:30 p.m.
